## AID REFUSED TO SCHOONER BY STEAMSHIP

At Astoria Crew of K. V. Kruse  
Tells of Tanker Crew's Con-  
duct During Storm

Appeal For Food Brought  
Flippant Signalled Reply  
From Steamship

Astoria, Ore., April 4.—Her sails in tatters, rigging wrecked and her hull timbered with scars from a bitter, racking battle with the elements, the four-masted schooner K. V. Kruse is at anchor here today, 115 days after leaving Adelaide, South Australia. A tug towed the vessel from a precarious position outside the harbor bar, and she reached the quarantine station late last night.

### DOGGED BY ILL-LUCK

It was a fearful trip, the seamen told reporters. The ill-luck started in mid-ocean. A Russian sailor—the men could not remember his name—was lost overboard in a sudden squall.

As the Kruse neared the American Pacific seaboard she was caught squarely by a gale. The attempted to run before the storm, was driven out to sea, attempted again to reach shelter in Coos Bay and again was forced to put about.

For three weeks the fourteen men and Capt. Ash subsisted on the most meagre rations. During the last week their food consisted almost entirely of eight pounds of rice, intended originally for the skipper's parrot.

### TANKER REFUSED AID

In the storm while off Coos Bay the schooner hailed a passing tanker, unidentified as yet.

A signal was whipped to a masthead of the Kruse. "We are short of food," it said.

From the tanker the sailors say the words were signalled:  
"That is very appetizing."  
"We are unable to cross Coos Bay," a second signal flew from the schooner.

"That's too bad," the sailors say the tanker signalled and continued on her way.

### HOW FIRES WERE FED

All spare wood aboard the ship was burned in order to obtain warmth for the half-starved, rain-soaked crew. All spare booms were used, chairs were broken up and planks torn from the deck.

## PLAN TO BRING GAME DELEGATES

Jackson Arranging For Visit  
of Big Seattle Convention  
Here in August

Plans for bringing one of America's most important conventions of game experts to Victoria and Vancouver next August are being worked out by M. R. Jackson, K.C., chairman of the B.C. Game Conservation Board.

Acting as convener of the Canadian delegation to the joint conference of the American Fish Society, the Joint International Association of Game Fish and the Western States Association, Mr. Jackson attended a conference in Seattle recently to arrange details of the Seattle convention, which will be held in August.

Delegates from all over the United States and Canada are expected to attend the meeting to discuss game questions and the administration of conservation laws. This will be the first time that the convention has been held on the Pacific Coast.

As convener of the Canadian delegation to the conference, Mr. Jackson is endeavoring to arrange for the entire convention to visit Victoria and Vancouver during its actual proceedings.

It is planned to allow the delegates to hold sessions on the boat between Seattle and Victoria and Victoria and Vancouver in the course of visits to the two Canadian cities.

## Fire in Boston Is Quickly Conquered

Boston, April 4.—Fire which swept a large six-story building fronting on Pearl Street, in the wholesale district of Boston, early today caused a loss estimated at \$25,000.

Four alarms were turned in, calling out practically all of the downtown apparatus and the blaze was quickly brought under control. The fire was of undetermined origin.

## CAVELL FILM TO BE SHOWN SOON IN LONDON

London, April 4.—The Exchange Telegraph to-day said the London County Council had decided to permit the showing of the film "Cavell," depicting the execution of Edith Cavell, British nurse, by the Germans in Belgium during the World War.

## Await Fair Weather For Atlantic Flight

A view of the German monoplane Bremen, on which the interest of the world at present is centered, appears above. Herman Kochl (left) pilot, Baron Ehrenfeld von Huenefeld (right), sponsor of the flight, and the third member of the party are still delayed at the Baldern Aerodrome, near Dublin, Ireland, where since their arrival from Germany, March 26, they have been awaiting favorable weather for their great adventure. They hope to start for New York just as soon as all the reports from ships crossing the Atlantic indicate a fair period of weather. If they arrive safely at Mitchell Field, Long Island, they will be the first to have flown across the Atlantic from East to West.

## Inspector Tells Why Technical School Is Necessary For City

Will Provide Good General Education With Sound and  
Practical Training for Students Who Now Find  
Only Academic Courses Open; Provincial Govern-  
ment Ready to Contribute to Cost; Further High  
School Expenditure Necessary if By-law Fails

"The term 'technical school' is a misnomer by virtue of the common interpretation placed upon it by many who think it means only industrial or trade training. The proposed school is really a high school which will accommodate students electing to take courses other than the purely academic," said George H. Deane, Municipal Inspector of Schools, in the course of an interesting argument in favor of the proposed technical school, which he placed before the Women's Canadian Club yesterday afternoon.

### SYSTEM OUT-DATED

The changing conditions of life in Canada had shown the foremost educationalists that if the educational system were to be adaptable to a democratic country it must give opportunities to all and not to the few, said Mr. Deane in his preamble. One of the main objectives of education should be to give the student an opportunity to discover his or her aptitude.

But the Victoria High School offered only two courses, one leading to entrance to the University or Normal School, the other a commercial career.

(Concluded on page 2)

## GRIPPING STORY OF MIGHTY AIR FIGHTS TOLD BY GREAT ACE

The story of the fighting pilots from the Allied lines who met the great flying aces of Germany's armies during the Great War, a story of their heroism and sporting spirit, of their courage in the face of awful odds, told by one of the greatest fliers of them all, commences in The Times of Saturday, April 7. It is from the pen of Captain Roy Brown, winner of the nation's most coveted decorations, who drove Baron Manfred von Richthofen, famous German flier, to his death. Richthofen, slayer of hundreds of men, responsible for more than eighty German victories over Allied air machines, fell under Brown's guns in a duel above the clouds. The deadly persistence of the Canadian flier, his cool courage, his mastery flying and fighting, broke the charm that had carried von Richthofen through countless engagements almost unscathed. He was a worthy opponent who met his match in the young Toronto pilot, Captain Brown. This week's installment is the first of a remarkable series.

## TECHNICAL SCHOOL IS SUPPORTED

Eminent Educationists of  
Winnipeg Voice Strong  
Argument

Will Train Men to Develop In-  
dustries of Canada

Dr. Daniel J. McIntyre, superintendent of Winnipeg Schools, and Professor Hodgson, principal of the Winnipeg Technical High School, have replied to the criticisms of Victorians in connection with the plans of the City School Board and Department of Education for a Technical School here.

These two prominent educationists of Manitoba, well-known in the West for their work in the particular lines they follow, reply to these criticisms in part, as follows:

"I read with considerable interest, Mr. Schofield's article in The Daily Colonist and could not help reaching the conclusion that he, like some other critics who never visited the school, is not very familiar with its subject. I happened to be a member of the technical staff in the particular High School mentioned by him, during the three years in which technical students were enrolled as a class, namely 1913-14-15. There was no strictly technical class during the years mentioned by Mr. Schofield.

"Mr. Schofield must surely know that most of the boys who enrolled in this class were older than the usual students entering High School. 'Most of them knew when they enrolled that they would not be able to remain in school long enough to complete the regular three years. High School course and deliberately chose the course in which they considered they would gain the most benefit in the brief period of time that they would be at High School.'

"Then the war came on and instead of the boys going into stores and offices, many enrolled as soldiers and went overseas and unfortunately several did not return."

The statement goes on to say that the men who did come back have reached a position of prominence in many instances. There are numerous instances cited.

The technical schools are places where captains of industry get their initial training. They develop the minds required for our industrial executives. The best plan for the development of Canada's resources is to give the boys the shop knowledge and experience which will put them in possession of ability to develop the wealth that lies on all sides in the Dominion, the statement points out.

## Voting On Technical School To-morrow

Voting on the District Technical School By-law will open at the City Market Building at 8 a.m., to-morrow, with M. F. Hunter, City Clerk, in charge of the poll as returning officer. There is only one issue to go before ratepayers at this time, and that is the plebiscite on the school.

A three-fifths majority of the ballots cast will be required to give passage to the by-law.

Voting is restricted to those eligible to record their vote on money issues.

The poll will be closed at 8 p.m., with an early announcement of the result anticipated.

The passage of the by-law would authorize a thirty-year sinking fund loan by the city in the sum of \$150,000, to raise \$145,000 net for the city's share of a \$250,000 building and equipment.

The sum of \$105,000 would be contributed by the Provincial educational authorities towards the creation of technical tuition here, as well as the usual grants in aid of maintenance.

The proposed Technical School would serve the City, Esquimalt, Oak Bay and Saanich, as well as a wide area on the southern portion of Vancouver Island.

Carrying charges on the loan would approximate \$9,400 a year, or 25 cents for every \$1,000 of assessed value in the city.

This cost in taxes on the average home would be less than \$1 a year.

(Concluded on page 2)

## FIRE DESTROYS NEWSPAPER PLANT

Members of Staff of Scranton, Pa., Republican Have  
Narrow Escapes

Scranton, Pa., April 4.—Employees had narrow escapes when the building of The Scranton Republican, morning newspaper, was destroyed by fire early this morning.

Five men were sent to a hospital with burns.

With all avenues of escape cut off, men had to leap through windows and hang on ledges two and three stories above the ground until rescued.

Using the plant of The Scranton Times, the Republican went to press after the fire.

The loss is estimated at \$500,000. The fire started in the press room.

## IS ILL IN NEW YORK; CHAUNCEY M. DEPEW

New York, April 4.—Physicians attending Chauncey M. Depew, ninety-four-year-old railroad executive, who has been suffering from a cold since his return here from the South, reported he was resting comfortably today, after experiencing a good night.

## B.C. LABOR MEN DEBATE ORIENTAL ENFRANCHISEMENT

Vancouver-New Westminster  
Unions to Declare Attitude  
on Proposal

Vancouver, April 4.—Naturalization and enfranchisement of Orientals resident in Canada, as proposed in a resolution endorsed at a recent convention of the British Columbia section of the Canadian Labor Party, gave rise to a heated debate at a meeting of the Vancouver and New Westminster Trades and Labor Council last night.

### VOTE DEFENDED

While two Oriental delegates from a union of Orientals affiliated with the Trades and Labor Council preserved an unbroken silence a bitter controversy raged as to whether their countrymen should be given all the privileges of Canadian citizenship. Several delegates who had attended the Canadian Labor Party convention defended their attitude in voting for the resolution in spite of the off-repeated stand of the Trades and Labor Council against votes for Orientals.

## 26,000 MEN IN GERMANY STRIKE

Metal Workers in Saxony and  
Baden in Wage Contest  
With Employers

Berlin, April 4.—Metal workers totaling 26,000 were on strike in various parts of Germany to-day over differences on wage scales.

In Saxony 20,000 went on strike to enforce their demand for fixed minimum payment for time work and guaranteed payments for piecework. Many workshops in Dresden, Chemnitz, Plauen and Zwickau were at a standstill. Saxony industrialists will meet in Dresden to-morrow to decide whether they will declare a lockout of all metal workers.

At Mannheim, Baden, 6,000 workers struck for a wage increase of five pennings an hour.

## MALAYA RUBBER EXPORT RESTRICTIONS WILL END NOV. 1, BALDWIN STATES

## ONE IN JAIL, ONE INJURED AFTER FIGHT

T. Arkless Stabbed in Back;  
T. Burns Held on Wound-  
ing Charge

Charged with wounding Thomas Arkless, 411 St. Lawrence Street, in a street fight yesterday afternoon, Thomas Burns, longshoreman, was remanded when he appeared before Magistrate Jay in the City Police Court this morning. Bail was set at \$1,000. R. C. Lowe and H. E. A. Courtney appeared for the defendant.

Arkless was sent to the Jubilee Hospital yesterday. Dr. A. C. Price attended him when police officers had removed him to the headquarters first aid station. When ordered to hospital, Dr. A. C. Sinclair was called to attend the man. The wound is in the pelvic bone, and according to reports, is not serious. Arkless was weak from loss of blood, however.

Constable Charles Greiner was at the scene of the alleged altercation at the corner of Fort and Langley Streets at 4:30 o'clock yesterday afternoon. Patrolman Maurice Wilkinson and Constable Duncan McPherson rushed to help the officer, owing to a threat of trouble between longshoremen's factions.

### LOOK FOR KNIFE

According to Mr. Harrison's summary of evidence, police will endeavor to show that Burns' attack upon Arkless was premeditated. Mr. Harrison told the court that it was alleged that Burns opened a clasp-knife blade and placed the weapon ready for use in his coat pocket before he argued with Arkless. Police are seeking this weapon.

### \$50,000 SUIT

New Westminster, April 4.—Claiming \$50,000 damages from the British Columbia Railway Company Limited, Mrs. Kathleen Marie Elliott, Chilliwack, through her solicitor, John Ewen, has commenced a Supreme Court action. The plaintiff is the widow of Dr. J. C. Elliott, who was killed July 2 when an automobile he was driving was struck by a B.C. Electric special train at Sardis Crossing. The case will be heard in the Supreme Court April 19.

## Three Days Left To Secure Vote

Including to-day only three days remain in which registration on the Provincial Voters' List in Victoria City and Esquimalt Electoral Districts may be effected. Applications for registration are received without charge at offices kept open in normal business hours on the ground floor of the Court House, Bastion Street, where George H. Mabon is in charge of the work. On Friday the offices will be closed, opening again on Saturday from 9 a.m. until 1 p.m.

Hundreds taking advantage of the offices of Bishop & Worthington Limited, 578 Yates Street, being open from 9 a.m. to 9 p.m., by commissioners sufficient to handle the crowds. Charles R. Bishop, secretary of the Victoria Liberal Association, points out that applicants must be British subjects by birth or naturalization, of six months' residence in this Province, and one month in Victoria, and twenty-one years of age and not necessary to be property owners. Mr. Bishop further states that it is necessary for those who did not use their vote in the last Provincial election to register again to insure their names on the list. There is a possibility of those who have changed their addresses being struck off the Voters' List at the next Court of Revision, should an objection be made to their names remaining on the list as appears at present, and Mr. Bishop urges all who have changed their addresses to have the necessary changes made. Registrations for Esquimalt and Saanich electoral districts also are taken at this office.

This Continent and in Europe

## BRITISH NAVY MAN DEFENDS SELF AT TRIAL

Capt. K. G. Dewar of Battle-  
ship Royal Oak, Before Naval  
Court at Gibraltar

Gibraltar, April 4 (Canadian Press Cable via Reuters).—When the trial of Captain Kenneth G. Dewar, C.B.E., of the battleship Royal Oak on a charge of conduct prejudicial to discipline, similar to the charge upon which Commander H. M. Daniel, D.S.O., was convicted yesterday, opened here to-day, two rear-admirals were sitting in the courtroom. Captain Dewar objected to their presence. The point was debated by the court privately. The captain's objection was upheld and the rear-admirals retired.

Captain Dewar contested his defence himself, assisted by Day Kimball as legal adviser. Kimball defended Commander Daniel in his trial.

The judge-advocate read the charge against Captain Dewar to the effect that the latter was guilty of an act prejudicial to good order in accepting and forwarding to Vice-Admiral W. A. H. Kelly, commanding the First Battle Squadron, through Rear-Admiral Bernard St. G. Collard, C.B., D.S.O., a letter from Commander Daniel, the terms of which were subversive of discipline. The letter in question was then read and Captain Dewar pleaded not guilty.

## Storm-battered Steamer Arrives at San Francisco

San Francisco, April 4.—Storm battered, its crew exhausted and half its lumber cargo gone, the steamer Jane Nettleton arrived here to-day for repairs. It had won a three-day battle with a storm off the Oregon coast. The ship's destination is San Pedro. Its lumber cargo is for reconstruction in the St. Francis Dam area of California, recently flooded.

## WILKINS IS READY FOR ARCTIC FLIGHT

## Denial Made Trotzky Shot

Moscow, April 4.—The Soviet Foreign Office declared to-day that the report Leon Trotzky had been shot was "the purest fiction." The story of the alleged assassination of the former Red Army commander, as printed in a Paris newspaper, said he had been shot in the back by an Armenian supporter of Joseph Stalin four days ago in a remote section of Turkestan. Trotzky's condition was stated to be desperate.

The story could not be confirmed from any other source and the paper headed it "unauthenticated."

## WIDER RADIO BROADCAST FIELD FOR CANADA URGED

New York, April 4.—A dispatch from Washington which appeared in The New York Times to-day said: "Canada is seeking for six additional exclusive broadcasting channels, it is understood unofficially, and the matter was given consideration yesterday at a meeting of the United States Radio Commission. Nothing final was decided."

London, April 4.—Premier Baldwin announced in the House of Commons to-day that all restrictions on the exportation of rubber from British Malaya and Ceylon would be removed November 1, 1928. The existing restriction scheme, known as the Stevenson plan, under which the proportion of rubber permitted to be exported at a minimum rate of duty varying with the price of crude rubber, would be continued unless altered in the meantime, he said.

New York, April 4.—The price of crude rubber dropped six and one-half cents a pound to-day as the New York Rubber Exchange entered the final hour of the busiest day in its history.

At 2:30 o'clock more than 7,500 tons of rubber had changed hands, breaking all trading records. Traders were still swarming about the ring frantically trying to sell stocks steadily decreasing in value since receipt of cables early to-day to the effect that the British rubber export restrictions would be removed November 1.

### BUYERS LACKING

There were virtually no buyers. July and September contracts were selling at 21.2 cents a pound, compared with yesterday's final quotation of slightly above 27 cents. December was quoted at 21 cents flat and October at 22 cents, while January, February and May contracts were being around 21½ cents.

The market closed easy, with prices hovering around 21 cents a pound.

### M.P.'S TO DEBATE PLAN

London, April 4.—Premier Baldwin, after announcing to the Commons to-day that restrictions on the exportation of rubber from Malaya and Ceylon would be ended November 1 next, replied to a number of questions. He said there would be a debate on the matter and full information would be given to the House.

### COLONIAL OFFICE ORDER

Asked whether the new situation required the sanction of the Commons, Premier Baldwin replied he would like notice of the question, but he thought it could be done by order of the Colonial Office.

Neil Maclean, Labor, then asked: "If you have the right to remove restrictions or to impose them, what is the use of having a debate upon them?"

Commander J. Kenworthy, Labor, intimated he would raise questions to-morrow.

London, April 4.—Premier Baldwin's announcement to-day that November 1 next all Malaya and Ceylon rubber export restrictions would be removed had a demoralizing effect in Mincing Lane here, where the rubber prices (Concluded on page 2)

### ELECTION FINES

Montreal, April 4.—Found guilty of violating the Municipal Elections Act, fifty-one men were fined \$100 each here yesterday as an aftermath of Monday's municipal election. Three women taken into custody suspected of having either "telegraphed" or attempted to "telegraph" votes, were detained until the polls closed and then released. Of the fifty-one men found guilty, twenty were charged with personation at

the polls, while the other thirty-one were charged with "attempting to telegraph votes."

## FAMOUS PIANIST PLAYS TO-NIGHT

MARK HAMBURG

who is giving his farewell Canadian concert to-night at the First Baptist Church, on the eve of a long tour of Australasia, says he finds at the several music centres he visited, great differences share his last tour of the Dominion. "One of the outstanding differences," he declares, "between now and the last time I was in Canada four years ago, is that there seems to be a greater enthusiasm generally among the people." His programme to-night embodies some wonderful examples of modern thought. Mr. Hambourg's recital will commence at 8.30, which opens with Beethoven's famous "Sonata in A flat" Op. 26 (Funeral March). Tickets can be obtained at the doors of the church, which will be open at 7.45. Mrs. Hambourg is accompanying her gifted husband on his tour of the great Southern Continent.

## MR. ANDREWS SAYS HUSKY DID GREAT THINGS FOR HIM

H. G. ANDREWS

One of the many cases which illustrate the fine work being done by Husky, an herb preparation, is that of H. G. Andrews, 1430 Bay Street, Victoria, B.C., who tells of his experience as follows:

"Before I started the Husky treatment I had indigestion in the worst form," said Mr. Andrews. "I couldn't hold food on my stomach. If I did retain anything it caused me pain and didn't seem to digest. I was also constipated and I am telling you that I was feeling so bad most of the time that I was hardly able to do my work. Some days I felt like I wouldn't last till night."

"You will realize that I am grateful to Husky when I tell you that this medicine has relieved me of suffering and made me feel so much better that I no longer get that all-gone feeling while at my work. My food is digesting and the constipation is gone completely. I am eating good meals and getting strength from them, thanks to Husky."

If you don't feel well, go to-day to MacFarlane's or any well stocked drug store and get a bottle of

## C.P.R. Announces Lake Service

Montreal, April 4.—Announcement is made by the Canadian Pacific Railway Company that on and after Monday next, shipments of freight will be accepted at eastern points destined to points in the northwest of Canada, via Port McNicoll, Ont., and on the company's lake and rail route, subject to delay at Port McNicoll pending the first sailing. There will be five steamers in the company's lake service between Port McNicoll and the head of the lake during the coming season, and the first of these will leave Port McNicoll as soon as weather and ice conditions permit. Shipping instructions should therefore read via Port McNicoll and lake and rail route. Freight shipments for Georgian Bay ports via Owen Sound and the Dominion Transportation Company or the Owen Sound Transportation Company will be accepted on and after April 23.

The through passenger service via Canadian Pacific Railway lake and rail route will be resumed this season as follows: From Owen Sound May 7, by St. Manitoba and from Port McNicoll, on May 19, by St. Kevin and Assiniboia.

## New Railroads Are Declared to Be Great Nation Builders

Toronto, April 4.—"One of the greatest things the Liberal Government of Canada ever did was the building of railroads to outlying parts of the country, such as the Hudson Bay Railway and new lines into the northern part of Western Canada," said C. R. McIntosh, M.P. for North Battleford, Sask., and proprietor of The North Battleford News, at a luncheon given yesterday by the Toronto Men's Liberal Association.

Years ago, he continued, Canadians flocked across the border into the United States as there were no rail-

### WORLD RUBBER PRICES SUDDENLY FALL

(Continued from page 1)

slumped 2½ pence to 10½ pence a pound for spot and May delivery. June was quoted at 10½ pence and July and December at 11 pence a pound.

#### U.S. LEADERS' VIEWS

New York, April 4.—The announcement to-day by Premier Baldwin that all Malaya and Ceylon rubber export restrictions would be ended November 1 next is regarded here as bringing to an end, at least for the present, the effort of the British rubber trade to control world rubber prices. Export restrictions were established under the legislative authority of the Stevenson Act in 1922 with the purpose of holding prices to a level insuring profits to British rubber operators, who then handled most of the world's supply, with the United States the biggest buyer.

#### GREAT FLUCTUATIONS

Prices subsequently experienced extreme fluctuations, rising at one time to the neighborhood of \$1 a pound. United States manufacturers, believing the restrictions not only would continue to raise prices but actually threaten this country's supply, laid new plans.

One result of their efforts was the organization of the National Reserve for Crude Rubber, or American Rubber Pool, which bought some 65,000 tons of rubber to hold as a reserve and apparently succeeded to a great degree in stabilizing prices. Last year the fluctuations were limited to about 9 cents a pound. Methods of reclaiming rubber were improved and the output enormously increased, assuring a further supply of rubber for certain purposes, chiefly among the lower priced automobile tires.

The restrictions imposed on the export of rubber from Malaya and Ceylon for the last few years have recently been meeting with increasing disfavor among the rubber producers themselves, because of the steady decline in the price of the crude product. For some time the proportion of rubber permitted export at a minimum rate of duty has been dropping at intervals of three months, the scheme working on a quarterly basis.

#### DETAILS OF SCHEME

Under the Stevenson plan, if the average price of rubber in London was under 21, but not under 15 pence a pound during any quarter, the exportable percentage of standing production for the ensuing quarter at the minimum rate of duty was to be reduced by ten.

If the average price of any quarter was under 21, but was less than 24 pence, there would be no change in the ensuing quarter.

If the average price for any quarter was 24 or more pence, the percentage was to be increased by 10 for the ensuing quarter.

In no case was the percentage to be increased above 100 or decreased below 60.

### BRITISH NAVY MAN DEFENDS SELF AT TRIAL

(Continued from page 1)

#### LETTER MARKED SECRET

Paymaster Clouston, the first witness, as secretary of the accused captain, proved the writing of the letter, signed by Dewar and Daniel.

"Did I tell you to mark my letters secret?" Captain Dewar asked the witness.

"Yes," the paymaster replied.

"Did I emphasize the necessity of absolute secrecy?" the captain asked.

"Yes, on three occasions," the witness said.

#### DIFFICULT SITUATIONS

"As secretary you have seen me in difficult situations?" the captain asked.

"Many times," replied the witness.

"From your observation did you think I was the sort of person to lose my temper with the admiral?"

"Never," said the witness.

"Did you see evidence of indignation in the wardrobe as result of the incident described in the letter?"

"Yes,"

#### COLLARD TESTIFIES

Rear-Admiral Collard followed the paymaster on the witness stand and spoke of Captain Dewar having been appointed his flag captain and chief of staff on the Royal Oak.

"What were your relations with the

admiral?"

"I was his flag captain and chief of staff,"

he replied.

"Did you see any evidence of indignation in the wardrobe as result of the incident described in the letter?"

"Yes,"

he replied.

"Did you see any evidence of indignation in the wardrobe as result of the incident described in the letter?"

"Yes,"

he replied.

"Did you see any evidence of indignation in the wardrobe as result of the incident described in the letter?"

"Yes,"

he replied.

"Did you see any evidence of indignation in the wardrobe as result of the incident described in the letter?"

"Yes,"

he replied.

"Did you see any evidence of indignation in the wardrobe as result of the incident described in the letter?"

"Yes,"

he replied.

"Did you see any evidence of indignation in the wardrobe as result of the incident described in the letter?"

"Yes,"

he replied.

"Did you see any evidence of indignation in the wardrobe as result of the incident described in the letter?"

"Yes,"

he replied.

"Did you see any evidence of indignation in the wardrobe as result of the incident described in the letter?"

"Yes,"

he replied.

"Did you see any evidence of indignation in the wardrobe as result of the incident described in the letter?"

"Yes,"

he replied.

officers in the Royal Oak?" the prosecutor asked.

"They were correct, but not intimate," the rear-admiral replied. "I found it almost impossible to make friends with my flag captain."

"How were your overtures met?" the witness was asked.

"No FRIENDSHIP

"This is rather difficult to answer," he replied. "It was difficult to get on friendly terms. My flag captain's attitude was perfectly correct from the service point of view, but there was no friendship behind it."

"Did you place implicit confidence in him?"

"No, I can't say I did," was the answer.

LETTER OF COMPLAINT

Rear-Admiral Collard described the incident of Captain Dewar entering his cabin with an envelope in his hand and remarking:

"Complaints for the Vice-Admiral."

He then left the cabin.

The prosecutor requested the rear-admiral to comment on such letters from a disciplinary point of view, but the president of the court ruled against this.

At a later stage, however, Rear-Admiral Collard said he thought such letters so serious from a disciplinary point of view that it was necessary that they should be sent to his superior officer.

NEWSPAPER VIEWS

London, April 4 (Canadian Press Cable)—The London Daily Express in an editorial deals with the conviction of Commander H. M. Daniel by the court-martial at Gibraltar on charges of conduct unbecoming a naval officer.

On board the battleship Royal Oak at Malta prejudicial to discipline, the reprimanding of the commander and his dismissal from his ship. The Express says:

"Whatever justice there was in Commander Daniel's contentions, he had it in his power to make his case with the established regulations. The public are entitled to their own opinion of the events causing Commander Daniel to exceed the limits of disciplinary conduct, but the court, rightly, had to deal with his breaking the naval law."

NO PROTESTS

The London Daily Chronicle, commenting on the case, asks:

"What must the verdict mean if it is allowed to stand?"

It answers the question thus:

"It means that under the present system of naval law no officer under any provocation, can safely venture to exercise the right of protest."

ABOUT BANDMASTER

Answering questions by Capt. Dewar, Rear-Admiral Collard denied having used an epithet in speaking to the bandmaster. Whatever was said, he added, was not in the hearing of the band, but the incident might have been within sight of the guests.

Capt. Dewar—Would you be surprised to hear there are five bandmen prepared to swear they heard the word?

Admiral Collard—I would be.

"FED UP"

"Did you say you were 'fed up' with the ship?" Capt. Dewar demanded of Rear-Admiral Collard.

"No, I said I was fed up with the flag captain," Collard retorted.

"You said just now that our relations were perfectly correct," suggested the captain.

To this the witness replied: "One wants something more. One wants a loyal friend as his right-hand man, one who on every occasion will put the admiral's interest before everything else in the world."

"Even before the interests of the service," asked the captain.

"The admiral's interests are the interests of the service," was the reply of the witness.

INSPECTOR TELLS WHY  
TECHNICAL SCHOOL IS  
NECESSARY FOR CITY

(Continued from page 1)

The result, shown by a series of figures quoted by the speaker, was that roughly seventy-five per cent of those entering high school never entered the university or college, but either took up vocational work at home or were walking the streets.

"The Victoria High School fulfilling its function when qualifying only those with an aptitude for a professional or commercial career," the speaker declared.

HIGH SCHOOL "MISFITS"

In the opinion of Mr. Deane there was no stronger argument adduced in favor of the proposed technical school than criticism that the High School was turning out "misfits." In those students who were sometimes wrongly described as "dubs," the creative impulse might be much stronger than in those who excelled in purely academic work, and the proposed technical school would enable them to make the most of that creative impulse.

The technical school, instead of being, as many people erroneously thought, an industrial or trade training school, would provide a good general education with a sound and practical training. The courses would include a commercial course, a technical course for boys, where a sound general education would be supplemented by an emphasis on the sciences and workshops, a home economics course for girls, and an arts course.

TIMELY PROPOSAL

Those specializing only in the arts course and in music would be charged accordingly, said Mr. Deane, and he believed this course would be self-supporting.

Arguing that the present time was a good one for the inauguration of a technical school, Mr. Deane proceeded to show that some extension of educational facilities was made imperative by the present congestion at the High School. Built to accommodate a maximum of 1,000 students, it was at present housing 1,207. Even were the 217 Sanich students removed, the situation would be as bad again in two years' time, Mr. Deane declared.

SANICH STUDENTS

The removal of the Sanich students, as had been suggested by some critics, would mean a serious financial loss. At present Sanich paid \$85 per capita for these 217 students, or a total of \$18,545. With their removal, only six teachers could be dispensed with, representing a total salary of \$15,000, so that Victoria would be \$7,000 the poorer.

Nor was this all, for, Mr. Deane pointed out, the Sanich students made a big contribution to the student life. Last year the leading boy and girl at the school were Sanich students; this year the one leading so far came from Sanich, and the captain of the High School rugby team was a Sanich student.

In his own personal opinion, if the technical school by-law were

defeated and Sanich was given notice to withdraw its students, the Victoria taxpayers would be called upon to make up that loss of \$7,000 a year in additional taxes, and, in addition, at the end of two years it would be called upon to erect more High School accommodation.

COST OF SCHEME

Mr. Deane went into the cost of the erection and maintenance of the proposed technical school. The cost of the building was estimated at \$200,000, with an additional \$50,000 for equipment, as the present equipment used at the High School would be available. The Government had promised \$80,000 towards the cost of the

building, and \$25,000 towards the cost of equipment, leaving the city's expense at \$145,000.

The overhead charges for maintenance would be about \$8,000 per annum. It was estimated, while the salaries would be very little more than now, as the commercial students and their teachers would be transferred en bloc from the High School.

The proposed technical school would cost the ratepayer about 45 cents on each \$1,000 assessment, the speaker noted.

In conclusion, Mr. Deane appealed to the women to go to the polls on Thursday and support the by-law, and thus help Victoria to keep abreast of other cities whose experience had proved the

tremendous value to the community of a technical school.

Prior to the main address of the afternoon, Miss Lottie Bowron made an eloquent appeal to the women to support Empire Shopping Week, which is to be held throughout Canada on April 21 to 28. She exhibited a series of very striking posters received from the Empire Marketing Board, and urged the women to adopt its slogan, "Empire Buyers Are Empire Builders."

Mrs. P. McNaughton presided at the gathering, and during the meeting Mrs. W. H. Wilson, gold medalist, delighted the gathering with two songs, "The Piper of Love" and "Scotch Bells," with Mrs. Edwin Matthews at the piano.

## Angus Campbell & Co. Ltd.

1008-10 GOVERNMENT STREET

### The Correct Fashions for Easter, April 8, Are Displayed Here in the New Coats, Suits Frocks and Ensemble Costumes

The first Spring fashion buds burst as early as January—but the mode is not full-grown until Easter. Now it is easy to rate the models that have made their appearance, and these are the right fashions for April 8—the Cape Coat, the Tweed Ensemble, the Two-piece Suit and the Frocks of Plain and Printed Silk.

### Dress Coats Favored for Easter

If you are looking for an exceptionally smart Coat to wear on Easter Day, and every bright Sunday thereafter, remember the Style Rightness of "Campbell's" Coat Department. Knowing this department, you have every reason to find here exactly what you want. The Navy Blue and Beige Coats, that promise to be favorites on Easter Day, are here—with scarves, tuckings or fur cuffs for trimmings. And all of the most dependable "Campbell" value.

### Beautiful Georgette Frocks for Easter

The Spring Frock, that is most apparently feminine, is the frock of georgette, and because femininity has the upper hand in fashion right now, it is the Georgette Frock that will be the popular Easter Day costume. Low, snug hip-lines and finely plaited sections, feature these youth-giving frocks. Their colors include soft grey and bright navy, so fashionable at present, as well as the deservedly popular beige.

### A Pair of Smart Gloves Provides the Finishing Touch to Your Easter Costume

You Will Find the Newest Styles at "Campbell's"

You may leave the choosing of Gloves until the last, if you will—but never forget the importance of choosing them well. Certainly, an Easter Day costume deserves Gloves of first quality. You will be pleased with our showing of Gloves in doeskin, buckskin, washable suede and deerskin that are smartly hand-stitched. Beiges and greys in satisfying variety marked at popular prices.

### "Kayser" and "Holeproof" Full-fashioned Pure Silk Hose Will be Worn by the Smart Women at Easter. Priced at \$1.50 to \$3.50

Thousands of Pairs Are Here for Your Choosing  
in the Best Styles and Fifteen of the New Spring  
Shades. Sizes 8½ to 10½

Hosiery plays a most important part in the make-up of your Easter costume, and when this is so, why not purchase the best Silk Hosiery procurable, namely, "Holeproof" and "Kayser"? These two well-known makes of Silk Hose fashion the season's correct styles, and a wonderful range of new Spring colors that combine smartness with long wear; sizes 8½ to 10½. Priced from, per pair, \$1.50 to \$3.50

defeated and Sanich was given notice to withdraw its students, the Victoria taxpayers would be called upon to make up that loss of \$7,000 a year in additional taxes, and, in addition, at the end of two years it would be called upon to erect more High School accommodation.

COST OF SCHEME

Mr. Deane went into the cost of the erection and maintenance of the proposed technical school. ## PASS THE TECHNICAL SCHOOL BY-LAW

TECHNICAL EDUCATION IN VANCOUVER and New Westminster has been an outstanding success. The popularity of the courses available in Vancouver has been so marked that additional accommodation costing more than \$400,000 now is about to be provided. Similar success has been met with in many other Canadian cities and hundreds of cities and towns in the United States, in Great Britain and Continental Europe, of course, technical education is regarded as vital to the welfare of youth and the state as a whole. If the benefits have been so far-reaching in Vancouver and New Westminster, and it is common knowledge that they have; if the rest of Canada, the United States, and Europe look upon technical education as essential to their economic well being as any other sort of education, surely Victoria does not propose to lag behind in the march of progress. Our taxpayers will be assisting the youth of this community as well as themselves; they will be helping our youth to equip themselves for their share in the future development of Vancouver Island, if they pass the technical school by-law to-morrow—as we feel sure they will.

The principal value of a technical school in any community is that it increases the opportunities for young people more effectively to prepare themselves for their life's work. It "discovers" the boy who might otherwise have to go through life with the stigma of failure clinging to him because of his unsuitability for academic training. Vancouver's experience—the experience of other cities on this continent and on the other side of the Atlantic—has been that many boys who were total failures in an academic way were developed into very successful men in the technical school. It will be understood, too, that technical education puts the poor boy on a level with the son of wealthy parents in point of opportunity to succeed in life.

There is then the important psychological aspect of the question. Training in a technical school assists the youth to an understanding of the dignity of labor. His very association with modern machinery, for instance, appeals to his imagination and creates in his youthful mind a desire to build. His inventive faculties are called upon and we venture to suggest that very few of the boys of Victoria would fail to respond to that call.

Community loyalty also is involved in this proposal. The morning paper says if there are any boys who want technical training, they should go to Vancouver and get it. What would that mean? It would mean that any boy whose parents were not able to pay to keep him in Vancouver while he was getting his training would be deprived of this opportunity to equip himself for his struggle in life. It would mean also that practically all who did go would be lost to this Island for all time; they either would become absorbed in the industries of Vancouver or go elsewhere. They certainly would not have very kindly feelings towards this community. It is not necessary to emphasize the seriousness of this prospect.

Another point which now is well understood is that unless the taxpayers of Victoria spend \$145,000 on a technical school costing \$250,000 to build and equip, the Government contributing \$105,000 towards that amount, they will have to spend a large sum on new High School accommodation—to take care of the growing number of pupils at present in excess of the normal roll, and to make way for the normal increase. There would be no government grant in that case. Moreover, we cannot expect the Government to keep open its offer of \$105,000 towards a technical school, if we turn it down now. In other words, by passing the by-law to-morrow the taxpayers will effect a big monetary saving, relieve the congestion at the High School, get a technical school, and give our young people an opportunity to train and develop themselves along practical lines. That ought to insure the requisite majority when the ballots are counted.

### A TIP TO ALL NATIONS

INTERNATIONAL RELATIONSHIPS ARE queer things, when you stop to think about them. Nations rattle swords, threaten one another with wars, engage in rival armament races and all the while protest undying harmony.

But once in a while two nations do manage to get together on a basis of real friendship. And we'd like to call the attention of everybody abroad to the two leading nations on the North American continent—Canada and the United States.

The United States Department of Commerce has just made public the full story of the disastrous fire in the great Hollinger gold mine, at Timmins, Ont., on February 10, when U.S. mine rescue workers crossed the border to co-operate with Canadians in the business of saving lives.

Fire started in the mine on a Friday afternoon.

The Ontario authorities wired Washington, asking if one of the Bureau of Mines rescue cars could be sent. The call was received late in the day; officials at Washington were not at all certain whether they could send their men to another country. However, they decided to act first and ponder the legality later, and a mine rescue car at Fenner, Pa., 75 miles south of Pittsburgh, was ordered to the scene.

Jenners is an out-of-the-way place, and it was Saturday morning before the car got to Pittsburgh. Bureau of Mines experts boarded it there, and through the co-operation of railway and customs officers of both nations, the car was rushed to Timmins in record time, reaching there Sunday morning.

Then, after a brief conference, mining experts of Canada and the United States donned masks and went down into the shaft—risking their lives together in the hope of saving the entombed miners.

As it happened, the entombed men were already beyond help. They apparently had died within an hour of the time the alarm was given. Yet the trip of the mine rescue car across the border was not in vain.

That trip, we may say, stands as an object lesson to diplomats and prime ministers everywhere—an object lesson in the way two neighboring powers can get along with one another. Instead of hatred, fear and suspicion, Canada and the United States have friendly co-operation. They work together to save lives.

There is nothing finer, or more hopeful, in the history of international relationships. On this side of the water we have found the way to international harmony and peace. No forts line our borders; when a disaster occurs in one nation, the other does what it can to help.

The leaders of Europe might well ponder the solution we have found. Friendliness brings security better than heavy armaments. Canada and the United States have proved it.

### SHOULD BE BIG VOTE TO-MORROW

NO DOUBT THE MAJORITY OF THE taxpayers of Victoria expect the requisite majority for the technical school by-law, when the ballots have been counted to-morrow; but it is essential that every voter who is able to get out and vote does so. It is one of the most important proposals which they have had to deal with for some time past and we feel sure their recognition of this fact will remind them of their responsibility.

We can not conceive of the taxpayers defeating the by-law for the sake of forty-five cents per thousand dollars of assessment, which its approval would involve, still less in view of the very handsome contribution of \$105,000 towards its cost which the Government would make. Incidentally, should it be defeated, we could not reasonably expect the Government to keep its offer open indefinitely, since there are other communities in the Province which, naturally enough, would want the money.

### WHAT OTHER PAPERS SAY

WHERE IS YOUR FIRE ALARM?  
From The Kingston White Standard

We were struck the other day by reading that the president of the firemen's federation of France was at a dinner in Paris the other day, and offered to give a second dinner to the whole company if even three of the guests could tell him the position of the fire alarm nearest his own home. It was found that not one of them could. How does that apply to our readers? Do they know where their nearest fire alarm is? Also do they know the number to phone to in case of a fire? Try it first on yourself, and then on your friends.

OVER-HEATING  
From The Toronto Globe

Central heating and lack of fresh air in homes and apartments is undermining the health of the Canadian and United States people, in the opinion of Dr. R. D. Humphries, of Sydney, Australia, who was in Toronto to-day.

He is studying methods used by the University of Toronto medical schools in the course of a world tour. He declared that since his arrival on this continent he has seldom been able to find a house or hotel that was properly heated and aired. Rooms heated to the point demanded by the people of this continent would sap resistance to disease and develop a race strongly subject to throat and lung troubles, he believed.

HEALTH IN THE SCHOOLS  
From The Montreal Star

Sir George Sutton, who has done remarkable work in Britain in educating children attending schools to a fuller realization of the value of health to a nation, has just published a comprehensive pamphlet review, in which he has been doing a job of the position as he sees it to-day. While there has been progress and while the number of C3 men and women is less than it was when the result of the physical and intellectual tests for enlistment started England with its revelations of a far lower standard than the nation had prided itself upon, yet there is much to be done and in the opinion of Sir George Sutton no effort is too great in the achievement of the object in view.

Sir George Sutton thinks that the hope of improvement lies mainly in the schools, in inculcating into the minds of the boys and girls attending the various classes a realization of the prime importance of observing the simple rules that make for health and contentment. It is not abstract or theoretical teaching of physiology or hygiene that is wanted. These subjects are of value from the training standpoint, but the one outstanding lesson that should be taught in the class-room and can only be taught to the nation effectively in this way is the value of fresh air and sunshine, the importance of care of the teeth and the eyes, personal cleanliness and simple rules about diet and exercise. Through the children this information is conveyed to the homes and it is obvious that the more attractive the lesson is made the more likely the children will be to transmit their knowledge to their parents.

The newspapers have hammered the basic rules of health for many years. Knowledge imparted through the schools reaches the world in a manner which gives confidence of rich returns.

### A THOUGHT

There is no new thing under the sun.—Eccl. 1.9.  
In these times we fight for ideas, and newspapers are our fortresses.—Hein-

## DO YOU KNOW—

That the original name of the Bowery in New York City was the "Bouwerie," the name applied to the estates of the Governor, Peter Stuyvesant, whose farm and orchards embracing the region lying about the upper part, were called the "Great Bouwerie."

## Life's Niceties Hints On Etiquette

1. If introduced to the same person twice, how should you greet her?  
2. If a person says he remembers meeting you at another time, what should you do?  
3. If a stranger knows some friend of yours, does that give him any special claim on your time and attention?

### THE ANSWERS

1. Not pleasantly and say, courteously, "Yes, I've had the pleasure."  
2. Try to recall the meeting and, if you can't be tactful in regretting that you can't.  
3. Yes, for your friend's sake you should be considerate.

## Bridge Me Another

By W. W. WENTWORTH

1. Partner not having bid, what do you lead against a suit bid, when you hold A J 10 7?  
2. When you hold J x x x x in opponent's suit and bust, do you double?  
3. What is the quick trick value of K J 10 x x?

### THE ANSWERS

1. A. If you have no better suit to lead.  
2. No. Double on general strength rather than on trump alone.  
3. Three-quarters quick trick.

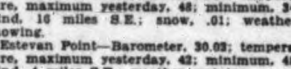

## The WEATHER

Daily Bulletin Published by the Victoria Meteorological Department

Victoria, April 4.—5 a.m.—The barometer is falling on the Northern Coast and rain is spreading southward. Snow has been general in the prairies.

Reports  
Victoria—Barometer, 30.02; temperature, maximum yesterday, 54; minimum, 42; wind, 14 miles S.E.; weather, cloudy.  
Vancouver—Barometer, 30.06; temperature, maximum yesterday, 54; minimum, 40; wind, 4 miles S.E.; weather, cloudy.  
Kamloops—Barometer, 30.08; temperature, maximum yesterday, 48; minimum, 32; wind, calm; rain, 62; weather, cloudy.  
Prince Rupert—Barometer, 30.02; temperature, maximum yesterday, 48; minimum, 34; wind, 16 miles S.E.; snow, 61; weather, snowing.  
Estevan Point—Barometer, 30.02; temperature, maximum yesterday, 48; minimum, 48; wind, 4 miles S.E.; weather, raining.  
Tatoosh—Barometer, 30.08; temperature, maximum yesterday, 48; minimum, 42; wind, 12 miles S.E.; rain, 62; weather, raining.  
Portland, Ore.—Barometer, 30.02; temperature, maximum yesterday, 54; minimum, 42; wind, 8 miles S.E.; rain, 24; weather, fair.  
Seattle—Barometer, 30.12; temperature, maximum yesterday, 50; minimum, 38; wind, 14 miles S.E.; rain, 62; weather, cloudy.  
San Francisco—Barometer, 30.14; temperature, maximum yesterday, 54; minimum, 48; wind, 4 miles N.E.; rain, 14; weather, clear.  
Poultice—Temperature, maximum yesterday, 52; rain, 64.  
Grand Forks—Temperature, maximum yesterday, 48; minimum, 26; snow, 1 in.

## JOTS FROM GEOGRAPHY

THE EAGLE OF THE RHON VALLEY, in Germany, overlooks one of the richest locations in the country. This bronze eagle was surmounted on the pile of stone, to symbolize the spirit of the people who live in the valley below and to act as a sort of protector for them.

"CIVIC TAXATION EXEMPTION"  
To the Editor:—Mr. Dean's latest, under the above caption, will deceive no one—not even himself. To say that I have admitted that the figures in his letter of the 15th are irreducible, is sheer mendacity. What I did say was that I had never questioned "the accuracy of the calculations," which as he should know, is quite a different matter. In my letter of March 16 and 20 I showed that these figures which Mr. Dean stated were based on "assumed" values, were widely misstated; that the valuations of land were entirely different to what he had assumed; that he had omitted to take into account taxation paid by unimproved land; that his "examples" were either the result of ignorance or a deliberate attempt to mislead the people. Beyond a bit of smart contortionism he has made no attempt to extricate himself from this dilemma, but simply repeats his piece in the apparent hope that somebody will believe it. There is little to be gained in this. There is a lot to be lost. The "examples" which Mr. Dean's "examples" raised on them in leaflet form during the late mayoral contest very definitely passed judgment on them when they refused his services as chief magistrate of the city.

R. H. CHAPPELL,  
Deep Cove, N. Saanich.

## Other People's Views

Letters addressed to the Editor and intended for publication must be short and snappy. The Editor will make the shorter the chances of insertion. All communications must be signed and addressed to the Editor, but not for publication. The Editor will not be responsible for the return of any material in the discretion of the Editor. No responsibility is assumed for the return of any material in the discretion of the Editor. No responsibility is assumed for the return of any material in the discretion of the Editor.

### INSTALL A LETTER DROP

To the Editor:—It will soon be time for the Spring repair work. Doubtless you are planning to do a certain amount of painting and repairing with a view to improving the appearance and comfort of your home. While you are doing this, do not overlook installing a letter-drop in the front door. It will take only a few minutes of your time, and very little money, and will last a life-time. Then the next time the postman comes around he will not have to wait while you answer the door, or if you are absent, leave your letters where they may be stolen or carried away by the wind or mischievous children. Even if you are at home when he calls, it may not be convenient to answer the doorbell. The thoughtful builders who are trying to provide all possible conveniences will certainly have letter drops put in all houses they are constructing this Spring. Suitable boxes for letter drops may be obtained at any of the local hardware stores at small cost, so do not fail to get one within the next few days.

### A FINE PROGRAMME

To the Editor:—If the splendid orchestral concert which marked the inauguration of the series of radio programmes to be given by the "Sunset Broadcasters" is to be as successful as a criterion of those that are to follow, radio listeners in Victoria and elsewhere within range will have the pleasure of listening to a daily dinner hour programme that should please the severest musical critic. To the writer, and doubtless to thousands of others, it came as a most pleasant surprise to find that the "Sunset Broadcasters" are not aware that their city stands high as a musical centre, or perhaps it may be that their modesty prevents them from giving due expression to their sentiments in this regard. The series of daily programmes so auspiciously inaugurated should form a splendid advertisement for our city, apart from the fine entertainment they will provide for her people. The programme came in with fine clarity and there was an entire absence of harshness or harshness. The enterprise of the various local firms and individuals, through whose commendable public spirit these concerts appear to have been made possible, is deserving of all praise. It is to be hoped that citizens will respond by sending notes of appreciation to the management of CPCL—"applause cards"—as they used to be termed. I am aware, of course, that, according to report, the novelty of "writing to the broadcasting station" has worn off somewhat. Nevertheless, I feel sure that a gentle reminder is all that will be necessary to insure a bumper mail in appreciation of Victoria's enterprising "Sunset Broadcasters." More power to them.  
Victoria, April 2, 1928. CITIZEN.

### WHY I SUPPORT TECHNICAL SCHOOL

To the Editor:—I am an Englishman who has lived in Victoria for some years and have had a boy in our Technical School and at Night School. The knowledge and skill he has acquired has been a great assistance to him at his trade which he is learning in Victoria. Our boys in Victoria and vicinity, to say nothing of other parts of the Island, should be able to get their technical training in Victoria, and not be dependent on Vancouver and New Westminster. Our boys who do not wish or cannot go to the university should have a chance to get an education which will make them more efficient in their work as well as better and more intelligent citizens.

## TWENTY-FIVE YEARS AGO TO-DAY

THE VICTORIA DAILY TIMES, APRIL 4, 1903

Last week the exhibition of school work, which has been in course of preparation for some time past, was formally declared open by the Minister of Education, Hon. W. B. McInnes, M.P.P. The work of the pupils of the different schools occupies every available bit of space in the upstairs portion of the market building. There was a large crowd in attendance last night when Chairman R. L. Drury, with a few congratulatory remarks, introduced Mr. McInnes.

E. C. Smith, M.P.P. for Southeast Kootenay, in an interview given The Times, bears out the report formerly published that he intended supporting the Government.

Weather Forecast—Victoria and vicinity: Moderate to fresh winds, chiefly southerly; partly cloudy and mild with occasional showers to-night or Sunday.

At last the site for the Carnegie Library has been selected. Yesterday, in no uncertain manner, the realtors announced that they had secured the site erected on the lot at the northwest corner of Blanshard and Yates Streets.

R.M.S. Moana, Captain Carey, left Vancouver at noon to-day for Australia, via Honolulu and Suva, with another large cargo of Canadian products.

## San Francisco Shipping

San Francisco, April 4.—H. E. Perkins, district agent for the United States lines at Los Angeles, received word here yesterday that he has been appointed acting general agent of the lines on the Pacific Coast. Perkins has been here since 1904. He is a former general agent of the United States Steamship Company, and he has since then been performing the duties of general agent. No indication was given at the local office of the line as to when a permanent successor to Perkins would be named. Andrew A. Moran, until about two years ago freight traffic manager for the Dollar Steamship Company, has joined the firm of Sudden and Christenson, and will have charge of the traffic of the line, with headquarters here. Arthur Cahill, president of Sudden and Christenson made this announcement here yesterday before Moran departed for Portland where he went to confer with R. D. Dawson of the United States Steamship Company of that city.

March was the busiest month of the year as far as lumber shipments into this port are concerned, figures re-

## The "CANARY" MURDER CASE

By S. S. VAN DINE  
Author of "The Benson Murder Case"

"Well," admitted Markham, "the question had its effect. . . I feel that I shall see this fashionable M. D. again."

"You will," iterated Vance. "We took him unaware. But when he has had time to ponder the matter and concoct an appeal, he'll become downright glib. . . . Anyhow, the evening is over, and you can meditate on buttercups till the morrow."

But the evening was not quite over as far as the Odell case was concerned. We had been back in the lounge-room of the club but a short time when a man walked by the corner in which we sat, and bowed with formal courtesy to Markham. Markham, to my surprise, rose and greeted him, at the same time indicating a chair.

"There's something further I wanted to tell you, Mr. Spotswoode," he said, "if you can spare a moment."

At the mention of the name I regarded the man closely, for I confess, I was not a little curious about the anonymous escort who had taken the girl to dinner and the theatre the night before. Spotswoode was a typical New England aristocrat, inflexible, slow in his movements, reserved, and quietly but modestly dressed. His hair and mustache were slightly grey—which, no doubt, enhanced the pinkness of his complexion. He was just under six feet tall, and well proportioned, but a trifle angular. Markham introduced him to Vance and me, and briefly explained that we were working with him on the case.

and that he had thought it best to take us fully into his confidence. Spotswoode gave him a dubious look, but immediately bowed his acceptance of the decision.

"I'm in your hands, Mr. Markham," he replied, in a well-bred but somewhat high-pitched voice, "and I concur, of course, with whatever you think advisable." He turned to Vance with an apologetic smile. "I'm in a rather unpleasant position, and naturally feel a little sensitive about it."

"I'm something of an antinomian," Vance pleasantly informed him. "At any rate, I'm not a moralist; so my attitude in the matter is quite academic."

Spotswoode laughed softly. "I wish my family held a similar point of view; but I'm afraid they would not be so tolerant of my foibles."

"It's only fair to tell you, Mr. Spotswoode," interposed Markham, "that there is a bare possibility I may have to call you as a witness."

The man looked up quickly, his face clouding over, but he made no comment.

"The fact is," continued Markham, "we are about to make an arrest, and your testimony may be needed to establish the time of Miss Odell's return to her apartment, and also to substantiate the fact that there was presumably some one in her rooms after you had left. Her screams and calls for help, which you heard, may prove vital evidence in obtaining a conviction."

Spotswoode seemed rather appalled at the thought of his relations with the girl becoming public, and for several minutes he sat with averted eyes. "I see your point," he acknowledged at length. "But it would be a terrible thing for me if the fact of my delinquencies became known."

"That contingency may be entirely avoided," Markham encouraged him. "I promise you that you will not be called upon unless it is absolutely necessary. . . . And now, what I especially wanted to ask you is this: Do you happen to know a Doctor Lindquist who, I understand, was Miss Odell's personal physician?"

Spotswoode was frankly puzzled. "I never heard the name," he answered. "In fact, Miss Odell never mentioned any doctor to me."

"And did you ever hear her mention the name of Skeel . . . or refer to any one as Tony?"

"Never." His answer was emphatic. Markham lapsed into a disappointed silence. Spotswoode, too, was silent; he sat as if in a reverie.

"You know, Mr. Markham," he said, after several minutes, "I ought to be ashamed to admit it, but the truth is I cared a good deal for the girl. I suppose you've kept her apartment intact."

He hesitated, and a look almost of appeal came into his eyes. "I'd like to see it again if I could."

"I'm sorry," Markham sympathetically, but finally shook his head. "It wouldn't do. You'd be sure to be recognized by the operator, or there might be a reporter about, and then I'd be unable to keep you out of the case."

The man appeared disappointed, but did not protest; and for several minutes no one spoke. Then Vance raised himself slightly in his chair.

"I say, Mr. Spotswoode, do you happen to remember anything unusual occurring last night during the half-hour you remained with Miss Odell after the theatre?"

"Unusual?" The man's manner was eloquent of his astonishment. "To the contrary. We chatted a while, and then, as she seemed tired, I said good night and came away, making a luncheon appointment with her for to-day."

"And yet, it now seems fairly certain that some other man was hiding in the apartment when you were there."

"There's little doubt on that point," agreed Spotswoode, with the suggestion of a shudder. "And her screams would seem to indicate that he came forth from hiding a few minutes after I went."

"And you had no suspicion of the fact when you heard her call for help?"

"I did at first—naturally. But when she assured me that nothing was the matter, and told me to go home, I attributed her screams to a nightmare."

"I knew she was tired, and I had left her in the wicker chair near the door, from where her screams seemed to come; so I naturally concluded she had dozed off and called out in her sleep. . . . If only I hadn't taken so much for granted!"

"It's a harrowing situation," Vance was silent for a while; then he asked: "Did you, by any chance, notice the door of the living-room closet? Was it open or closed?"

Spotswoode frowned, as if attempting to visualize the picture; but the result was a failure.

"I suppose it was closed. I probably would have noticed if it had been open."

"Then you couldn't say if the key was in the lock or not?"

"Good Lord, no! I don't even know if it ever had a key."

The case was discussed for another half-hour, then Spotswoode excused himself and left us.

"Funny thing," ruminated Markham, "how a man of his upbringing could be so attracted by the empty-headed, butterfly type."

"I'd say it was quite natural," returned Vance. "You're such an incorrigible moralist, Markham."

### CHAPTER XX

(Wednesday, September 12, 9 a.m.)

The following day, which was Wednesday, not only brought forth an important and, as it appeared, conclusive development in the Odell case, but marked the beginning of Vance's co-operation in the proceedings.

The psychological elements in the case had appealed to him irresistibly, and he felt, even at this stage of the investigation, that a final answer could never be obtained along the usual police lines. At his request, Markham had called for him at a little before 9 o'clock, and we had driven direct to the district attorney's office.

Heath was waiting impatiently when we arrived. His eager and covertly triumphant expression plainly indicated good news.

## Your Baby and Mine

By MYRTLE MEYER ELDRED

### MAKING THE CHILDREN LIVE UP TO COMPANY IDEALS

Everyone knows that it is "only when company is here" that children act like demons, causing the mother embarrassment and ending what should be a happy day with punishments and tears.

Children aren't really more vicious when company is about, but there are many reasons why they seem to be, chief of which are the sharp eyes of mother focused on all their faults.

Mother doesn't notice when Jimmy grunts his replies to her until Mrs. Adams is calling, then she feels compelled to say: "Is that the way to answer mother?" not only filling Jimmy with embarrassment, but actually influencing him to be even more rude.

Adults think they have all the rights to be nervous when company is expected but that children should be little models of deportment. What

child can be impervious to the suppressed excitement; the secret goodies stored in the ice-box and pantry; the scolding he gets for every careless fingermark on the furniture's terrible shininess? If in his excitement he doesn't use the guest towel in the bathroom, or stick his finger in the ice-box cake, or come in with muddy feet, it would be nothing short of a miracle.

And mother is so different when company is about. She has a different voice which leads young daughter to snuggle up to her, and leads mother to say in annoyance: "Do run and play, show Mary Ann your new doll clothes. Good gracious, can't you find anything better to do, you two, than sit with us?" It is all very confusing to a child.

Besides two strange children can't be expected to get acquainted immediately, and if there are many children, even though acquainted, the new and suited surroundings of a "party" is enough to set them heading for mischief as inevitably as the compass points North.

We believe that children's parties should be supervised by adults who will keep things going smoothly, and that grown-up parties with children are a complete loss to adults. When children are along, one must take into consideration that the surroundings

are bound to be exciting, and excitement leads to almost anything. If one must drag children into such artificial situations, one must pay the penalty and give up one's time to entertaining the children. Otherwise the poor child is going to be blamed and punished for reacting exactly as he could be expected to react.

### Spring Cleaning At Aged Women's Home

The meeting of the Aged and Infirm Women's Home committee was held at the Home on Tuesday afternoon and much routine and other business transacted.

One room was reported to be vacant. The health of all of the aged inmates with one or two exceptions was reported to be very good. Much cleaning and renovating is taking place, with also the usual amount of kalsomining. The new fence to be erected on Collinson Street will be commenced at once.

The visiting committee for April is Mrs. Hoddle, convener, with Mrs. Clay and Mrs. Wm. Grant.

Donations for March, which were gratefully received are the following: Mrs. Whittier, coat; Mrs. Crump, hat;

## "SALADA" TEA

Nowhere else but in a "SALADA" package can you obtain such high quality tea for so low a price and be sure that such quality will continue. Try one package! If it does not please you, your grocer will gladly refund you your money.

several friends, magazines; Victoria Flower Co. Limited, Pollock Bros., Mrs. Wm. Grant and Mrs. McGregor, flowers.

Y.W.C.A. Welcome Club—The Y.W.C.A. Welcome Club will meet on Thursday, Supper will be served at 6 p.m., after which the annual meeting and election of officers will be held. All members are requested to attend.

Centennial Silver Tea—Under the auspices of the Centennial Ladies' Aid a birthday silver tea will be held tomorrow afternoon at the home of Mrs. Galley, corner of Manchester and Sumas Streets. The affair will open at 3 o'clock and continue until 6. There will be a good programme and tea.

"a cup of chocolate for vigorous school days"

There's a wealth of vigor, health and happiness in every cup of Ghirardelli's Ground Chocolate.

It's so easy to make. No grating, no melting, no fussing. Just follow the directions on the can.

Ghirardelli's Ground Chocolate is a blend of cocoa, unsweetened chocolate and pure sugar, just rich enough to be quickly and easily digested. There is no other product just like it and no exact substitute.

Say "Gear-ar-delly" to any grocer.

# MAKES THIRD TRIUMPHS IN FOUR YEARS

## Lester Patrick Gets Into Main Pickings In Hockey Once More

New York Rangers Earn Right to Meet the Montreal Maroons in World's Series for Stanley Cup, Starting To-morrow Night, and Their Leader Sets Amazing Record; Records for Both Attendance and Players' Melon Are Likely to Fall

Lester Patrick is making history for himself. Three times in the last four years the crafty leader of the New York Rangers in the National Hockey League has been the boss of one of the contending teams in the world's series for possession of the Stanley Cup.

Right now he has his Rangers in Montreal ready to shoot at the Maroons in the 1928 world's series, which will no doubt set a new record for gate receipts and the players' melon. The first game will be played to-morrow night.

It is unfortunate for the managers and players of the contending teams that they cannot play the first two games of the series in Madison Square Garden, New York. Through an oversight no provision was made for home games for the Rangers in case they made the world's series, and Ringling Brothers' circus booked the Garden for all April. As a result the Rangers will be forced to play against the Maroons in the Forum at Montreal.

**LOSE MUCH MONEY**  
Had the first two games been played in New York the players' pool would have shattered all records. The total takings for a single game in New York are \$52,000. This would have made the receipts for the first two games \$104,000, with the gate for the third game in Montreal adding about \$15,000 to the total. After deducting expenses the players on the winning team would have gathered approximately \$2,000 apiece, which would have been just about double the previous record of last year, when Ottawa and Boston played in the final.

Two years ago Lester Patrick led the Victoria Cougars into the Montreal Forum to meet the Maroons in the world's series. By a turn of fate Lester again leads a team into the series, but this time it will be a club from the largest city on the American continent. The 1926 world's series between Victoria and Maroons went into four games and each player on the winning team received over \$800 as his share. The players' share was reduced considerably because the first \$50,000 of the receipts was earmarked for the expenses of the Victoria club. In the coming series the traveling expenses will be a mere fleabite, and the players will as a result get a much larger cut. Last year, when the series was played in Boston and Ottawa, the stakes were much smaller than the Montreal Forum, the winners' end of the purse ran into four figures.

**PACKED HOUSES**  
The Maroons will not prove as popular as a drawing card in the world's series as the Canadians would have, but the appearance of the Rangers will make sure of packed houses every night. The arena seats 10,000 and about 2,000 standing-room tickets can be sold. The talk of crowds of 16,000 witnessing games there is incorrect. They could not get that many in if they sat them on the massive iron girders spanning the ice.

In the last four years Lester Patrick has just missed one world's series. In 1925 he piloted the Victoria Cougars in and administered a crushing defeat to the Canadians in the series here. The following year he took the Cougars east to play Montreal. Last year Lester should have been in the finale with the Rangers, the most unbiased critics agree, but had refereeing in the final game in Boston cost his team the chance, and they were beaten in the play-offs. This year Lester pulled his club through a tough season, despite many injuries, and then gave Boston a merry trouncing in the finale.

**STILL A VICTORIAN**  
The appearance of the Rangers in the world's series has added much interest in Victoria, where Lester is popularly known. Although holding the most lucrative managerial job in hockey to-day Lester still prefers to call Victoria his home and he spurns the lure of the East as a place of permanent residence.

Lester's great work in getting the Rangers into the finals will likely see Lester win, like the thoughts of the Stanley Cup going across the border. It has never been there.

## Victoria Ladies Go To Vancouver For Golf Match

The annual match for the Hunting Cup will be played at the Jericho Golf Club, Vancouver, to-morrow. The Victoria team held the cup last year, when it was played at the Colwood Golf Club.

The following is the Victoria team, alphabetically: Mrs. Abel, Mrs. Armstrong, Mrs. D. Gillespie, Mrs. Hutchinson, Mrs. King, Miss Mose Miller, Mrs. Perry, Mrs. Philbrick, Miss Schwengers, Mrs. Wilding, Mrs. Forbes Wilson and Miss Marion Wilson.

**CLANCY SCORES K.O.**  
Jacksonville, Fla., April 4.—Joe Clancy, former heavyweight, knocked out Tom Morris of Cardiff, Wales, in the sixth round of a ten-round bout here last night.

## FAILS

SPRAGUE CLEGHORN

The Boston Bruins, after a brilliant showing under the leadership of Cleghorn, failed miserably in their final game against the New York Rangers last night. Cleghorn took over the managerial job when Art Ross became ill six weeks ago and the Bruins went into a gallop that carried them to the top of the American group of the N.H.L. The Bruins, however, could not hold the Rangers last night.

## CRESCENTS BEAT NANAIMO TO WIN ISLAND HONORS

Score 23-20 Victory and Capture Intermediate "B" Basketball Championship

Nanaimo Evened Score in the Second Half But Slipped; Harmony Defeat Red Wings

Victoria added another Island basketball title to her credit last night, when the Crescents, local intermediate "B" champions, defeated Nanaimo 23-20 at the Victoria High School gymnasium in the final for the Island championship.

Play was very even with the boys trying hard all the way. The pace was fast and the checking heavy. Bob Whyte, the referee, however, had the teams well under control.

The Crescents gathered a four-point lead at the start, while Nanaimo, playing hard, kept from two to four points behind until half-time. Shortly after half-time, Bradshaw, star player of Nanaimo, was banished with four "personals." The score at this time was 12-11. The locals assumed the lead, and despite the attempt of Nanaimo, walked off with a three-point victory.

**STARTED FIREWORKS**  
Lowe started the fireworks for Victoria when he dropped in two points from under the basket. Bradshaw, behind until half-time, shortly after half-time, Bradshaw, star player of Nanaimo, was banished with four "personals." The score at this time was 12-11. The locals assumed the lead, and despite the attempt of Nanaimo, walked off with a three-point victory.

**SOUMINEN STILL LEADS**  
Souminen retained the lead in elapsed time with 184.10.30 for the 1,114.7 miles, a lead of slightly more than five hours over Andrew Payne, of Claremore, Okla.

The field was reduced to 91 when Carl Swenson and Mike Gallena, Palm Beach, dropped out of the trek from Tucuman.

The leaders in elapsed time: Arne Souminen, Detroit, 184.10.30; Andy Payne, Claremore, Okla., 189.13.12.

Peter Gavuzzi, Southamph, Eng., 191.40.31; John Cronick, Saskatoon, 206.17.55; Ed. Gardner, Seattle, 210.17.16.

John Balo, Passaic, N.J., 211.17.20; Phil Granville, Hamilton, Ont., 211.49.20.

Volght Hofstater, Manistee, Mich., 216.22.50; William Kerr, Minneapolis, 218.33.09; Louis Perella, Albany, N.Y., 225.17.50; Harry Rea, Long Beach, Cal., 227.32.45.

Ollie Wantinen, New York, 228.03.47.

## HORSE RACING

Bowie Race Track, Md., April 4.—Leading a big field of favorites, Son of John, owned by the Livingston stable, pranced home a winner in the \$5,000 inaugural handicap yesterday before a crowd of 20,000 persons at the opening of the Maryland racing season. The time of 1:26 set a new track record for the seven furlong feature.

Racing conditions were excellent. Turf notables jammed the stands several hours before the horses started, and some disappointment was evidenced when it was announced that the Whitney horses were withdrawn from the stake.

Son of John, the winner, paid \$26.80 for a \$2 pari-mutuel ticket, while Heslon Kay paid \$20.50 for place and Bucky Harris \$17 to show.

## Rangers Take Bit In Teeth, Run Away From Boston and Get Title

Honors in Gainer Group of National Hockey League Pass Into Hands of Lester Patrick's Club; Rangers, Now in Top Form, Have Easy Time Disposing of Bruins and Will Participate in World's Series for First Time; Boston Fans Pay \$20 for Seats; Score 4-1

Boston, April 4.—Taking the bit in their teeth toward the end of the second period and disclosing a flash of brilliancy in the third frame that sent their rivals into complete eclipse, the New York Rangers qualified to represent the American division of the National Hockey League in the Stanley Cup series, beginning to-morrow night in Montreal, by beating the Boston Bruins 4-1 at the Arena here last night.

As the teams tied at Madison Square Garden Sunday night this left the Rangers winners of the two-game series by 5-2.

Bill Cook was the first to drive home the wedge of victory with little more than a minute to play in the first frame, the Ranger captain coming in from the right to meet a pass from Frank Boucher. Bill took the puck within a few feet of the goal, searched for his opening and then slammed the puck into the corner of the net.

**HELD AT BAY**  
For the first half of the final frame the Rangers had to defend their goal with everything they had in speed and endurance and successfully held the Bruins at bay.

Murray Murdoch, the youngster who had made two goals on this rink and put the Rangers into a tie the last time they were here, was the next to score.

With a two-goal lead the Rangers seemed reasonably safe, despite the savage assaults being delivered incessantly by the Bruins. Boston had one man on the blue and four in Ranger territory. Again they failed to gauge the Ranger speed, for at 16:18 Bunny Cook burst away and scored a third goal. To make the record of the "Three Musketeers" complete, Boucher put in a fourth.

Harry Oliver scored for Boston on the rebound of Gainer's shot. However, that was in the last minute and the Rangers could afford to be magnanimous.

Boston fans were said to have paid a top price of \$20 for seats for this game, all seats having been sold out for days.

**FIRST PERIOD**  
Both teams started off with blinding speed after Fredrickson and Boucher faced off and for the first three minutes all of the play was in the centre ice space. Fredrickson was the first Bruin to carry the puck past the Rangers' defence but Johnson blocked him out of his shot.

The Rangers' defence stood up like a stone wall. Oliver made the first direct shot at either goal when he took Fredrickson's pass. Chabot made the stop and Oliver was injured on the play. Bill Cook was able to slip up to the Bruins' blue line but Winkler found him and skated down the entire left side of the rink to fire at Chabot. It was turned aside.

**SNAP SHOT**  
On a face-off, Gainer, who replaced Fredrickson, caught the puck as referee Smeaton dropped it and fired it at Chabot. The puck was taken back. The Rangers' goalie just caught the puck in time.

Both teams were playing like maniacs and the brand of hockey in the first ten minutes was the best seen here this season. At this point Johnson drew a penalty for tripping. With Rangers a man short the Bruins then took the puck and scored. Connor caged the puck but the goal was not allowed because a Bruin was offside. Bill Cook, a moment later, shot the puck into the Bruins' cage but one of his mates was offside to spoil the effort. The Boston forwards clustered inside the Rangers' line and fired a dozen shots at Chabot in as many seconds. The outcome was that Fredrickson became entangled with Cook and drew a penalty.

**SECOND PERIOD**  
Chabot made a wonderful stop of the Bruins' first threat in the second period. Fredrickson shot from the right side and the puck struck the goal's post. A Boucher was struck by a stick while checking and left the ice. Winkler made two pretty saves when Gainer shot and recovered the puck and shot again. Then came a full minute of dashing play in front of the Rangers' cage. The Rangers' defence men were invincible and throughout the flare-up the Bruins did not get into a shooting position once.

Gainer was banished for tripping and Thompson followed him for an illegal check. When Gainer quit the box he hooked the puck and went down only to be tripped by Johnson. The latter drew his second penalty of the game on the play. Gainer then found a hole in the Rangers' defence and slipped through. Chabot made the stop. Bun Cook was then penalized for holding.

Bill Cook scored the first goal of the "game" after he headed down the right side, weaved in between Shore and Hitchman and poked a clean shot through Winkler. The time was 18:54. Cook was injured on the play and limped off the ice a few seconds before the period ended.

Johnson was forced off when he slipped and injured his nose. Bourgeault drew a penalty for tripping on the next play. Galtbraith was accidentally tripped and his head struck the ice sharply. He was taken out. Murdoch ousted the Bruins' forwards down the right side but Winkler saved. The Rangers were strictly on the defensive and tried every trick of the game to keep the Bruins from hooking

## SAVED

CLINT BENEDET

Much of the success of the Montreal Maroons is due to the spectacular goal-tending of Benedict. Although a veteran he stands out as one of the best in the business. He is particularly good as a money player, being almost invincible when the stakes are high. Although the Canadians had some nice openings last night they could not make Benedict pass up anything.

**FIRST PERIOD**  
Play opened at a fast clip and both goalies were called upon to stop several shots during the first five minutes. Little advantage could be claimed by either team. Maroons started to press when Maroons was penalized for tripping Stewart. The Canadian flash returned before any damage was done.

Lepine, Canadian sub centre, made his appearance on the ice for the first time since he broke his collarbone six weeks ago.

Ward drew a minor for spilling Joliat. The Maroons lay back on the defensive until their right winger returned to action.

**GOAL DISALLOWED**  
A Joliat-Gagne combination broke through the Maroon defence, and Gagne beat Benedict. The whistle had blown for off-side the moment he took Joliat's pass and the count was disallowed. Both teams sent their subs into action and Maroons began to have a slight edge. Siebert and Dutton staged lone rushes in their, but both, although of the dangerous variety, were eventually blocked by Hainsworth.

Oatman and Lamb then combined and worked in on the Canuck net. Hainsworth would not be beaten, however. Leduc relieved the pressure with a dashing lone sortie which all but carried him through the Maroon defence.

Oatman went off, but the Canucks could do nothing with the extra man. Just after the Maroons returned to full strength, Maroons took a pass from Joliat right in front of the unsuspecting Benedict. The latter dove at the puck, however, and smothered the shot. The period ended a few seconds after.

**SECOND PERIOD**  
Dutton went off for hooking soon after play opened in the middle frame. The Maroons took no chances while short-handed, and were on the defensive until the big defence man's return.

Gagne and Maroons broke away and only a perfect play by Benedict kept the Canuck centre flash from scoring. Ward relieved and on a lone rush proved troublesome to Hainsworth. A fast three-man attack took play to the

**HANDICAP EVENTS**  
In the one mile handicap for boys under fourteen years the following riders have entered: R. Askey, D. Feden and C. Feden, while in the two-mile open handicap for boys under sixteen years the following will compete: Glen Robbins, Tom Moss, Bill Epley and Garret Glave.

Owing to these two races being handicap events, the boys are reminded that they will all have an equal chance to win a prize, as each rider is handicapped according to his ability to ride, and also according to the style of the machine he uses.

Suitable prizes are being provided for the races and it is expected by Friday there will be a large entry list. Those wishing to compete are requested to send their entry to the local secretary, Rev. Gillson, P.O. box 995, as early as possible.

**With the Bowlers**

The Western Canada Radio won the Commercial Bowling League championship last night when they made a clean sweep of their three games against Victoria Baggage. Irwin rolled an aggregate score of 540 to take the honors, while Wilson of the baggageemen, topped 190 for high individual score.

The scores were as follows:

VICTORIA BAGGAGE			
A. Vivian	154	145	125
R. Thompson	144	138	149
R. Hiscrocks	133	125	150

A meeting of the City and Commercial Bowling Leagues will be held at the Arcade Alleys to-night at 8 o'clock for the purpose of making arrangements for the annual banquet.

## Canadiens, Favorites To Win Hockey Title Nosed Out By Maroons

Popular and Colorful Flying Frenchmen, Sensations of Regular League Schedule, Lose by Only Goal, Scored by Russell Oatman in Overtime; Sturdy Defence of Montreal, Backed Up by Fine Goal-tending of Benedict, Too Much For Flashy French Forwards

Montreal, April 4.—Montreal Maroons are champions of the Canadian section of the National Hockey League, and as such will uphold the honor of the Maple Leaf in the Stanley Cup series against the New York Rangers, winners of the United States division of the league. The Maroons won their honors at the Forum here last night when they scored a 1-0 overtime victory over Canadiens in the second contest of a two-game series for the divisional title. The first game, played Saturday night, resulted in a two-goal draw.

**THE HERO**  
The scorer of the lone counter of the struggle, who emerged as the hero of the night, was Russell Oatman, Maroon substitute left-winger. Oatman broke up the game after eight minutes and the twenty seconds of overtime play, when he rushed to the attack, but a perfectly defence men to grab his own rebound, which he slammed past Hainsworth. It was a dashing play by the stocky Maroon substitute, but it was a tough break for the Canadian goalie, who otherwise played a brilliant game. He was fairly beaten on that counter, however.

Close to 16,000 wildly-enthusiastic fans witnessed the struggle. The result put the Maroons into the world's series for the second time in their short career of four years. Canadiens, the most popular as well as most colorful team in hockey, were expected to be the finalists and many expected them to win the Stanley Cup.

**FIRST PERIOD**  
Play opened at a fast clip and both goalies were called upon to stop several shots during the first five minutes. Little advantage could be claimed by either team. Maroons started to press when Maroons was penalized for tripping Stewart. The Canadian flash returned before any damage was done.

# RADIO GAINS WITH NATION

British Columbia Fifth in  
Ownership; Greater Sales  
Anticipated

In Victoria there are 3,452 radio sets according to latest figures compiled for the Dominion. In Vancouver there are 7,444 sets.

British Columbia's total number of radio receiving sets in operation at the present time is 17,238, which ranks the Province fifth in the Dominion of

Canada. The total of the nation's radio sets is estimated to amount to more than 246,161, with more sets being sold every day.

Radio experts and sales people calculate that there will be an additional 50,000 radio sets sold in Canada in the new radio year, which commenced April 1.

Ontario leads the way with 116,513 sets, and Quebec's 48,768 receiving radios swell the total. Saskatchewan ranks third with 24,015 and Manitoba follows with 17,593, Alberta has 12,909 sets.

In the Maritimes, Nova Scotia heads the list with 6,673 and New Brunswick possesses 4,014. Prince Edward Island has only 418.

Northwest Territories reported forty-seven sets in operation last year and Yukon the discouraging number of thirteen. But the inroads of the radio are rapidly reaching farther into the country and by far the great majority of prairie farms operate sets. Receiving conditions of the North prevent a wider use of radios, it is said.

# Your Child's Teeth

Keep Them Free of Film

To it dentists trace tooth and gum troubles and that "off-color" look

DO you want your child to have prettier teeth and better protection from tooth and gum troubles now and later on?

You will notice a film on your child's teeth. The same stubborn film that you can feel by running your tongue across your own teeth. You must combat it. Ordinary dentifrices

don't fight it successfully. Film clings to teeth, gets into crevices and stays. Germs breed in it and imperil teeth and gums.

Pepsodent curdles the film, then gently removes it, and firms the gums. It is the modern scientific method for better tooth protection. Get a tube today or mail the coupon.

## MABEE TO LEAD LEAGUE DRIVE

Local Society Out to Build Up  
Big Membership

R. S. Mabee, a member of the National Council of the League of Nations Society in Canada, will head the campaign for new members as manager of the Victoria drive. The appointment was made last night at a meeting held in the board room of the Patria branch of the Canadian Legion, 525 Courtney Street, under the chairmanship of Lindley Crease.

The assistance of senior members of the Girl Guides and Boy Scouts will be sought for canvassing April 17. Miss Byron of the Kumtuka Club and H. T. Ravenhill, Boy Scout commissioner, were added to the committee.

Dean Quinlan has kindly offered to provide facilities for members of the congregation of Christ Church Cathedral to secure membership application cards at the cathedral after each service on Sunday, April 15. Rev. Dr. Clem Davies has agreed to serve on the committee, to preach on the League of Nations at the services in the City Temple, Sunday, April 15, and have membership cards available at each service.

A. S. Averill will deliver a lecture on the work of the League of Nations at the Normal School to-day. Following the lecture, which he gave there yesterday, he was requested to repeat it to-day to give students who were absent an opportunity to hear it. The accomplishments of the League in retarding more than 400,000 prisoners at the end of the war, staying the spread of disease and preventing at least seven new wars during the eight years of its existence were described to an appreciative audience.

A meeting of the whole committee will be held at 1014 Broad Street, Thursday, at 8 o'clock when a slogan for the campaign will be decided upon. The assistance of canvassers is required and anyone able to give the whole or part of the day on April 17, is requested to communicate with A. S. Averill, 333 Pemberton Building, as soon as possible.

## Sunset Orchestra Is Received With Great Enthusiasm

Local radio fans have welcomed with intense enthusiasm the latest innovation at CPCT, the "Sunset Broadcasters."

The Victoria Broadcasting Association has obtained sufficient support to enable its radio station, CPCT, to broadcast a daily programme of some of Victoria's finest talent which is enjoyed by radio listeners over the dinner table.

A fine array of musicians has been secured, and the high calibre of their offerings has been demonstrated every evening by tuning-in CPCT—at 6:20 o'clock. In so doing, radio fans will not only discover that they compare very favorably with anything that is available on Puget Sound, but they will also be forcibly reminded of the vast improvement in the quality of the local broadcaster, the result of much time, thought and money.

The Sunset Concert Orchestra and the instrumental trio have already delighted local listeners, but there is more to follow. A silver band, pipe organ and a dance orchestra have yet to make their first bow to the audience of CPCT.

The Sunset Broadcasters are to be congratulated on the overwhelming success which greeted their first efforts in the realm of the ether. The instantaneous popularity which attended their inaugural presentation will remain a tribute to the influential Victoria business houses whose progressiveness is responsible for the launching of the Sunset broadcasts.

Radio devotees will be happy to know that this new departure is not a temporary arrangement, but a permanent feature of Victoria's radio station.

All that the Sunset Broadcasters ask in return for this daily treat is the goodwill of Victoria citizens.

## Nicholson Trial In Terminal City Ends in Acquittal

Vancouver, April 4.—Angus Nicholson, advertising salesman, late yesterday afternoon was acquitted by an assize court jury of nine men and three women of a murder charge arising out of the death of Marshall Douglas, well known advertising man, on the morning of April 5 last. It was Nicholson's second trial on the charge. At the Autumn session of the assize court he was found guilty of manslaughter and was sentenced by Mr. Justice D. A. McDonald to four years' imprisonment.

The sentence was appealed, and the British Columbia Court of Appeal granted Nicholson a new trial on the ground there had been a miscarriage of justice.

Douglas was found dead in a room in the Hotel Canada here. The body was badly bruised. Douglas, with Nicholson and Robert Moore, had engaged the room late the previous night, according to evidence adduced at the trial.

Moore also was tried on a murder charge last Fall and was acquitted. Nicholson formerly was a resident of Seattle.

## British Troops To Remain in Egypt

London, April 4.—It is a foregone conclusion Great Britain will reject any claim of the Egyptian Government for withdrawal of British troops from Egypt. This may be reduced from the recent announcement that Britain will revert to the status of the 1922 declaration.

Cairo, Egypt, April 4.—Premier Nahas explained to Cairo newspaper representatives briefly yesterday Egypt's position with regard to Great Britain.

"In our note to Great Britain," he said, "we have striven on the one side to uphold our country's rights and on the other to maintain unimpaired our friendly relations with Great Britain."

**NOTICE**

Re Estate of Agnes Matilda Henry Cowley, Deceased.

NOTICE IS HEREBY GIVEN that all persons having claims against the Estate of Agnes Matilda Henry Cowley, formerly of Victoria, British Columbia, who died on the third day of February, 1928, are required, on or before the third day of May, 1928, to deliver or send by pre-paid letter post, full particulars of their claims, duly verified, to The Royal Trust Company, Administrator of the Estate of the said Agnes Matilda Henry Cowley, deceased, at its office, Belmont Building, Victoria, B.C.

AND TAKE NOTICE that after the last mentioned date, the Administrator will proceed to distribute the assets of the estate among the persons entitled thereto, having regard only to the claims of which it shall then have had notice.

Dated at Victoria, B.C., this 27th day of March, 1928.

Lake Hill W.I. — At the monthly meeting of Lake Hill Woman's Institute on Tuesday in the Community Hall, Mrs. Service occupied the chair and there was a good attendance of members. Letters of thanks for donations from the Spanish Agricultural Society and Public Health Committee were read. A resolution from Colwood W. I. in the commemoration of the founding of the Women's Institute movement was laid over. It was decided that members of Lake Hill Institute will demonstrate the making of a

wool quilt at the Home Products Fair. Mrs. Service will convene this undertaking. Mrs. Fiedler reported that she had organized a Boys' Poultry Club, with twelve members, and that Mr. Terry would address them on Tuesday evening. Mr. Breffitt gave an interesting talk on "Home Economics," particularly urging a national spirit in the support of Canadian products. Mr. Davies demonstrated the Beauty washer and accessories. Tea was served by Mrs. Porter and Mrs. Akerman. Owing to Friday being a holiday the usual class in physical culture and dancing will be held on the following Tuesday at the same time.

### NEWS IN BRIEF

An extraordinary meeting of the Victoria Boys' Work Board has been called by the chairman, G. R. C. Hebdon, to be held in the Y.M.C.A. Thursday evening at 8 o'clock.

At the weekly luncheon of the Victoria Rotary Club to be held tomorrow at the Empress Hotel at 12.10 o'clock, Alfred Carmichael will give an address on "The Discovery of Vancouver Island." The speech will be illustrated by early maps.

A lantern lecture will be given at Prospect Lake School on Thursday evening at 8 o'clock by J. W. Gibson, Supervisor of Provincial Normal Schools and Director of Agricultural Education. Mr. Gibson will deal with rural education as a joint enterprise for home and school.

Rabbi J. Levi will conduct the Passover services at the Temple Emanuel on Thursday evening. He will preach on "Jewish Emancipation" and also during the morning service on Friday his theme being "The Four Questions Answered." During the morning service on Friday the memorial service will be recited.

Plans which it is expected will bring more than a thousand men of militia units from New Westminster, Vancouver and Victoria under canvas at the Empress Hotel on May 5, a three-day camp from June 30 to July 2 will be held, subject to the approval of National Defence Headquarters, Ottawa.

Orlando J. Farber, special representative of the Eastman Kodak Company, arrived at the Empress Hotel to-day from Rochester, N.Y., in connection with an amateur motion picture exhibition to be held in the Chamber of Commerce auditorium on May 5. The film was produced entirely by amateurs and is being shown here for educational purposes.

A tour of condemned buildings will be undertaken by the City Council this afternoon, in company with the health authorities of the city. Some forty buildings are marked for demolition, and a public hearing at which the owners of the buildings will be heard, if they have representations to make, will be set shortly by the council.

"Labor Problems" will be the subject dealt with by J. B. Clearhue at a meeting to-morrow night at 8 o'clock in the Liberal Club rooms at Government and Broughton Streets. Mr. Clearhue is particularly acquainted with the requirements of wage earners and their families, and his address will be of great interest to those who are able to attend. The meeting is under the auspices of the Victoria Liberals, and open to the general public.

There was a large and appreciative audience last evening at the regular meeting of the local branch of the Royal Society of St. George, when Dr. Arthur F. Barton delivered his lecture on "Trilogy" in the Conservative Club rooms. A vote of thanks was duly moved to the speaker for his able address by Alderman John Harvey, who occupied the chair, and seconded by A. E. G. Cornwell, the secretary. Tickets for the forthcoming banquet on St. George's day, April 23, to be held in the Hudson's Bay dining-room, were distributed at the meeting, and it was announced that the honorary president, Dean C. S. Quinlan, would preside.

On Good Friday there will be no deliveries by letter carrier. The general delivery registration tickets will be open from 8 a.m. till 10 a.m. only. Postage stamps will be sold during those hours. The money order tickets will be closed all day. The evening street letter box collections only will be made. The lobby will be open as usual. All mail due to be despatched will be made up as usual. On Easter Monday the morning letter carrier deliveries will be made. The general delivery and registration tickets will be open from 8 a.m. till 12 noon. Postage stamps will be sold during those hours. The money order tickets will be closed all day. Street letter-box collections will be made as usual and all mail due to be despatched will be duly forwarded. At the sub-offices postal business generally will be conducted as on ordinary week days.

## EXPERT COMING TO PROCESS B.C. TOBACCO YIELD

Department and Growers Co-operate in Plan to Sell 1927 Crop

Definite arrangements for processing British Columbia's 1927 tobacco crop in this province so that it can be sold are being made by tobacco growers of the Okanagan Valley in co-operation with the Provincial Government. An expert who will supervise the processing of the crop, still unsorted, will arrive in the Province shortly to start this work. The Department of Agriculture will co-operate with the growers in paying the expense involved in the expert's services in the hope that the processed tobacco may find a ready market than that available for the raw product.

Processing of the crop will start shortly and the tobacco will be offered for sale in a state which is expected to command a satisfactory price. There is no market for the raw tobacco now and the growers still have virtually their entire 1927 production on their hands, suffering in this way the same difficulties experienced by the Ontario tobaccoists.

Meanwhile private interests propose to put the B.C. tobacco industry on a more satisfactory basis for the future by processing part or all of the interior crop produced from now on, according to advice received at the Department of Agriculture. These interests will establish a processing plant in the Okanagan Valley but are not prepared to handle the 1927 crop. Pending a stabilization of the entire tobacco situation, the Department of Agriculture is advising farmers to go slow in producing tobacco unless they are certain about their marketing arrangements.

## GAME BOARD TO HEAR VIEWS OF ALL ON SEASONS

Will Fix Tentative Seasons and Then Confirm Them Later

Adopting a new practice designed to provide game hunting seasons satisfactory to all parts of the Province, the Game Board, which will meet sportsmen in Vancouver on April 12 and 13, frame regulations and then confirm them after the game seasons have been considered by all interested. This new departure, of wide interest to sportsmen, was explained to-day by M. B. Jackson, K.C., chairman of the Game Board, at a meeting to fix the most satisfactory game seasons possible. He said the board would meet in the Vancouver Courthouse on the evening of April 12, so that sportsmen engaged during the day could attend and give their views on all the game seasons to be fixed this year. Further public sessions will be held on the following day while on April 13 the board will meet privately and draft the open seasons.

TO ADVERTISE SEASONS

The seasons so fixed for all game animals and birds will be advertised by a month later the board will meet again to confirm or revise its tentative arrangements. Mr. Jackson explained. In the meantime the entire Province will have become familiar with the seasons proposed and any objections to them may be laid before the board. This will avoid the present difficulty experienced by the game administration, which finds that sportsmen times fail to advance valuable information on game matters until after the open seasons have been fixed.

"We hope to get the views of all those who are interested in every part of the Province under the new plan," Mr. Jackson said.

## Vancouver Man To Answer Charge Of Stealing Stock

Vancouver, April 4.—Formal commitment of C. P. Porter on a charge of stealing five shares of British Columbia Electric Railway Company stock, valuable securities and cash totaling \$1,000 belonging to David John Fraser, Abbotsford, will be made April 11. Magistrate Shaw announced to-day following the preliminary hearing of the charge against him.

Detective A. A. Alcock testified to seeing the books and documents of the C. P. Porter Company under a search warrant, these being produced in court.

It was shown by William Tomlinson, accountant, that profits had been paid by the company to clients, but that the books of the company showed no sales of securities which would produce these profits.

Dividends had been paid clients on high-class securities supposedly bought for the clients, but the books, he stated, showed no receipts of dividends from those securities.

## B.C. LABOR MEN DEBATE ORIENTAL ENFRANCHISEMENT

(Continued from page 1)

President James Thomson several times called the meeting to order, abruptly putting a stop to personalities. He ruled out of order allusions to the likely harmful effect of the "Votes-for-Orientals" movement upon the fate of Labor in the coming election, the forthcoming provincial general election.

DECISION POSTPONED

A motion of Delegate Fred Welch that the Trades and Labor Council go on record as opposed to naturalization and franchise on the same terms and conditions as other nationalities was laid on the table until the first meeting in May.

DECLARATION BY UNIONS

All unions will be asked to report their stand on the question to the council before that time. It was decided on the motion of Delegate Bartlett.

## CLEAN-UP DRIVE HERE THIS MONTH

During the week of April 14 to 21 Victoria is going to clean up, brush up, paint up, wash up and polish up and get on her best looks for the summer season.

This clean-up move is being backed by the City Council, the Chamber of Commerce and the business houses of the city.

"The idea is to get rid of all the rubbish and dirt that has accumulated in various places during the last year and brighten everything up," the announcement from the Chamber of Commerce to-day says. To encourage the move to get rid of rubbish, the City Council has voted money and will send garbage wagons around to make special collections.

H. Cristoforo of the Government Employment Bureau is chairman of the committee in charge of the clean-up drive and handling the employment end of it.

## MORE ELK WILL COME TO B.C.

Federal Government Makes New Gift From Wainwright; Seek Reserve

As a gift from the Federal Government, British Columbia will shortly receive a load of elk from Wainwright National Park. M. B. Jackson, K.C., chairman of the Game Conservation Board, announced to-day. Other shipments of elk having been established in this Province successfully, the Game Board is anxious to secure more of the animals to restore the herd which formerly roamed the Province but were annihilated by hunters. Assured of another load of elk from Wainwright, the Board is looking around for a suitable place to place them.

Meanwhile two giant elk in the Naramata district have acquired a taste for fruit trees and may have to be destroyed. Mr. Jackson said. All measures taken by the board to cure the animals of their bad habits have failed so far. Even salt licks placed at long distance from Naramata have failed to attract the animals and they are causing considerable damage to some orchards. As a last resort the Game Board may order their execution, but which will be a last resort. The animals' value in a district where elk are becoming successfully established. Apparently only two bulls are guilty of trouble-making, the remainder of the animals in the district keeping well away from civilization.

## Gas Overcomes Repair Worker

Colin Young, an employee of the Victoria Gas Company, was overcome by gas escaping from underground pipes while working below the level of the road on Government Street, near the intersection of View Street at about 9.30 o'clock this morning.

Young, falling unconscious in the pit, was carried into the open air by comrades.

Prompt efforts at resuscitation were sufficient to revive him within a few minutes.

### OBITUARY

The funeral of the late Private Robert Pringle, who passed away at the Jubilee Hospital yesterday, will be held Thursday afternoon at 3.30 from the S. J. Curry and Son, Funeral Home, Quadra and Broughton Streets. Interment will be made in Royal Oak Burial Park. The late Private Pringle had been a member of the 78th Battalion, and came to this city eight months ago from Manitoba. He leaves to mourn his loss his mother, Mrs. J. Pringle, and two brothers at Waskada, Manitoba.

Reginald Willans, four-months-old son of Mr. and Mrs. J. Willans, passed away yesterday at 617 Douglas Street. The remains are resting at Hayward's B.C. Funeral Chapel, from where the funeral will take place on Thursday morning at 11 o'clock. Interment will take place in Royal Oak Burial Park.

The remains of Alexander Barrington Taylor were laid to rest yesterday afternoon in Royal Oak Burial Park. The cortege left Hayward's B.C. Funeral Chapel, proceeding to St. John's Church, where service was conducted by Rev. F. A. Chadwick. The hymns sung were "Peace, Perfect Peace" and "Abide With Me" and "One Sweetly Solemn Thought," a favorite of the late Mr. Taylor, was beautifully rendered on the organ by G. J. Burnett.

A large number of friends were present, including a delegation from the Masonic craft, and friends from Atlin, Ottawa and Victoria. Many beautiful floral designs covered the casket and hearse. The Masonic service was conducted by Worshipful Brother F. M. Bryant, and the following, all members of the Masonic craft, were pallbearers: George A. Clothier, Dr. Henry E. Young, J. P. Forde, Dr. S. A. K. White, C. E. Gooding and J. C. Miller.

Funeral services for the late Mrs. Helen Morrison Radford, who passed away at the family residence, 1830 Crescent Road, Sunday afternoon, took place yesterday at 2 o'clock, at the Thomson Funeral Home, 1625 Quadra Street. Rev. Dr. W. O. Wilson, pastor of the First United Church, conducted a very impressive service during which the hymn sung was "Safe in the Arms of Jesus." There were many friends present and beautiful floral tributes covered the casket and hearse. Samuel J. Drake, Jackson Hanby, H. P. Bishop, Edward Adams, C. R. Patton and F. C. Patterson acted as pallbearers. The remains were laid to rest in Ross Bay Cemetery.

Dr. Arthur F. Barton will deliver another health lecture in the New Temple this evening at 8 o'clock, to which the general public is cordially invited. His subject will be "Deferring Old Age." The lecture will be followed by demonstration of diagnosing diseases from observations of the eyes, which is always a popular feature of these health lectures.

## JOHN WALTER TO SPEAK ON TIMES AND TRADITIONS

Noted London Journalist to Be Guest at Government House While Here

The traditions of the press will be described by John Walter of The London Times in his public address to be given under the auspices of the National Council of Education in Victoria. The address will be given at the First Baptist Church, Quadra Street, on Tuesday, April 10, at 8.15 p.m. His Honor the Lieutenant-Governor and Miss MacKenzie will entertain Mr. and Mrs. Walter at Government House during their stay here, and will be present on Tuesday evening.

"Nothing could be more becoming in the ritual of the appropriate than to invite a John Walter to speak of the traditions of the press," says an editorial in The Manitoba Free Press of Winnipeg. "The name Walter is synonymous with the most perfect achievement in journalism; for it has been and, if legal stipulation can insure it, will be hereditarily associated with the conduct of The Times of London. In the direction of that newspaper since it was founded by the first John Walter in 1788, the name has not been missing in the line of family descent. With jealous concern for its character they made it the 'leading journal in the world.' They have never been so solicitous for its fortune as they have been in protecting its honor. This unyielding adherence to principle, this devotion to public service, the various other traditions which are the more binding for being unwritten. They are the code governing newspapermen, inspiring them to unexampled loyalties, exacting from them professional rectitude; and their origins are traceable in the development of newspaper practice in the rise of The Times of London. As accommodation in the church is somewhat limited, those desirous of hearing Mr. Walter are advised to get their tickets as soon as possible from Fletcher Bros., The Times of Colonist."

## PRESS CLUB'S BALL TICKETS NOW ON SALE

First Allotment of Tickets to Colorful Function Issued

Tickets for the Press Club ball of Friday, April 13, went on sale to-day, and can be obtained from members of the staffs of The Times or Colonist anytime between 7 a.m. and 5 p.m. They can also be purchased from the business offices of The Times and The Colonist. There is a limited number of tickets to be sold. Later the last allotment will be distributed at downtown stores.

The Press Club's Blossom-time Ball promises to be one of the greatest and most picturesque and pretentious thing of the sort ever held here. For sheer loveliness, the ball will be something which will be a lasting memory. A picture of a Japanese garden, blossoms, flowers, soft music and the scents of a warm, spring night, that is the setting," says Bruce Hutchinson, manager of the ball, upon whose shoulders has been placed sole responsibility.

"Speaking of music, Len Acres, clever and original young orchestra conductor and pianist, has already gone into rehearsal with his picked musicians preparing for the ball.

A talented lady banjoist has also been taken into this orchestra for this occasion.

## KIWANIS HOLD DINNER DANCE

Members and Friends Spend Delightful Time at Crystal Garden

The cabaret dinner dance held by the Kiwanis Club last night at the Crystal Garden proved a success. An attractive programme was thoroughly enjoyed by the members, many of whom were accompanied by their wives.

The dinner tables were decorated with the club colors, mauve and yellow, while daffodils were used as part of the decorative scheme.

The feature of the evening's programme were specialty dances rendered by Miss Edith Wilson and Miss Madge McCowan, pupils of the Russian School of Dancing.

Several vocal solos were given by Lu Conyers, while community singing was held under the direction of Cecil Heaton.

A splendid exhibition of boxing was given by Arthur Neel, Harold Deer and Frank Neel.

President Elwood Watkins acted as chairman while Herman Neilson was master of ceremonies.

## Contract Is Let For Conversion Of Apartments

A contract has just been awarded to the Walker Building Company for the conversion of the former R. P. Clark building on Steveston Avenue into an apartment house.

The large residence, which fronts on the Willows Beach, will be converted into five suites of apartments from plans drawn by Architects P. Leonard James and Hubert Savage. Each of the suites will be equipped with tiled bathrooms, with recessed tubs, hot water heating system will be installed and the kitchens will be fitted with electric ranges.

## Music Festival Students Are Invited

to visit our Music Room and practice on the actual Steinway Grand Piano that will be used in Temple Hall for all instrumental classes at the forthcoming Festival.

## STEINWAY

The world's greatest piano is the preferred instrument of practically every artist of world note. Call or telephone for an appointment to practice on this splendid piano.

## TRAIN BOYS FOR B.C. INDUSTRIES

Says Trustee Voicing Arguments For Technical School

Trustee W. T. Strath outlined the proposals of the Technical School by-law and the great need of more practical and technical instruction in the curriculum of the present system of education in Victoria at a meeting of the Metropolitan Church Brotherhood last night.

Mr. Strath exemplified his remarks by actual examples of boys he knew, and who were now holding good positions in the various industries of this Province. The students who completed their course in the Technical School here would easily be absorbed in the fundamental industries, such as mining, lumbering, fisheries and agriculture. The various other industries of the Province generally, he claimed.

Trustee J. S. McMillan also spoke on the value of technical education, which would impart in the development of brain and hand. A young man whose brain and hands were properly trained to work was of much greater importance to the community than the lad who simply received a smattering of Latin, French or Greek, he said.

Technical education, he further stated, was the strongest factor in the industrial development of any country, which had been proved by those countries like Britain, France, Germany, Italy, Sweden and the United States, where schools of this nature had operated for many years.

J. M. Campbell, principal of North Ward school, also spoke in favor of the proposal, and especially urged every member to use their influence to see that the Technical School By-law was passed by a large majority.

## SPECIAL MUSIC AT CATHEDRAL FRIDAY

"The Fulfillment" to Be Rendered Good Friday; Sunday Music

Good Friday music to be rendered at the Christ Church Cathedral at 8 p.m. will be "The Fulfillment" or "Scenes From the Passion" by David W. Brown. This work, as may be gathered from its title, is designed to illustrate the fulfillment of the redemption fore-shadowed in the prophetic utterances of the Old Testament.

In the passion scenes appropriate passages from the Old Testament, assigned to the voice precede each incident of the story as given in the New Testament, and where opportunity offers choral music in reflective or contemplative forms a commentary. The afterward announces the divine will accomplished and the Saviour committed to rest from His earthly labors. The soloists for this occasion will be Sidney White, baritone; Sidney Fitch, tenor; and Master D. Eaton, soprano. The performance will be under the direction of Harold Davis, organist and choir-master.

### EASTER SUNDAY

Special music for the festival of Easter will be as follows: Matins 11 a.m., Te Deum in F by Smart and a new communion service by Sydney B. Nicholson, late organist and choir-master of Westminster Abbey. Organ voluntaries, Toccata and Fugue in D Minor, Bach; Allegro from Sixth Symphony, C. M. Widor; Communion in D, Jolliffe. Evensong 7.30 o'clock, Magnificat and Nunc Dimittis in D by Dr. Charles Wood, late professor of music at Cambridge University; anthem, "The Strife is O'er" by Rathbone; solo, Angela Ever Bright and Fair, Handel, by Master Leighton Winter.

An organ recital will be given at 7 o'clock by the organist, Harold Davis. The programme is as follows: Evening Song, Barlow; Bells of St. Ann de Beaupre, Russell; Priere at Berceuse, Guilman; Choral Prelude, Bach.

## Republic of Colombia

6% External Sinking Fund Gold Bonds of 1928

Due October 1st, 1931  
Interest payable April and October 1st.

THE Republic of Colombia is rich in natural resources which find a ready outlet through its ports on both the Atlantic and Pacific.

Its National Debt is less than \$11.00 per capita which is among the lowest in the world.

The Colombian peso with a gold parity of 200 is at present quoted at a slight premium.

We recommend these bonds as a sound investment, selling at a substantial discount, and paying an unusually attractive return.

Price 95 and interest to yield over 6.35% to maturity.

## BUYING POORER THAN SELLING

New York, April 4. (By B.C. Bond)—L. R. Reid says: "I look for further reaction in the market and a sharp break in many stocks is not at all unlikely. The selling has been much better than the buying, and I would advise taking profits and protecting accounts."

## HUGE PLANES TO HUNT NORTH FOR RICH MINES

John E. Hammell, "father" of Red Lake, the Flin Flon and other valuable Canadian mine properties, lifts his eyes to a skyward path in the direction of the country's potential mineral deposits.

He has organized a company, the Northern Aerial Mineral Exploration Limited with capital of \$5,000,000 to carry on a campaign of aeroplane prospecting from Labrador to the Pacific coast. The issue is being handled in Victoria by the B.C. Bond Corporation.

A fleet of Pöcker super-universal planes with 450 horse-power motors and capable of 1,000 miles in a single flight will be used to develop lands for the Hammell interests. They will carry prospectors and supplies to a chosen field, establish a base and leave the "ground" men to seek the precious ore deposits.

### OAKS IS DIRECTOR

Capt. H. A. Oaks, war pilot and pioneer in aerial exploration of the north, is director of aerial navigation and assistant manager of the new company. Winnipeg, Capt. Oaks says, will be an assembling and maintenance base, probably the most important base of the service. Toronto is headquarters.

"Give wings to the Canadian prospector, engineer and geologist, and these courageous and trained mining men will find more mineral deposits in the next five years than have been discovered in the last half century," declares John E. Hammell, president of N.A.M.E. The company, he says, is organized to advance Canada's mineral frontiers and wrest further treasures from the nation's famed pre-Cambrian strata, richest of all geological shields.

Four large mining properties in three provinces are the result of Hammell's exploration—the Flin Flon in Manitoba; Howey, Harker, Ontario, and Huronian in Quebec. Capt. Oaks pointed out. With this prominent mining man, who holds the confidence of investors and prospectors alike, the scheme should be safely launched on its ambitious programme, the airman says.

The company plans to extend its new arm of the service into regions never before visited by white men. The vast hinterland beyond the western shores of Hudson's Bay and leagues of unexplored land north of the 55th parallel have hurried their challenge and the new company has heard.

The modern aeroplane was made for the task of exploring and developing these lands, Mr. Hammell states. With the cruising radius of 1,000 miles in a few hours will be possible.

Details of plans for this summer's programme of exploration and mineral search are not complete, Capt. Oaks says, but he indicated, however, that two large areas in Northern Manitoba and Ontario will be worked this season. Four planes—two super-universals of 540 horse-power, and two lighter scout machines for same work, are now on order and will be delivered shortly in Winnipeg.

## Winnipeg Electric Earnings Increase

Winnipeg, April 4.—A material increase in both gross and net earnings was revealed in the annual statement of the Winnipeg Electric Company, presented to shareholders at a meeting here yesterday.

Gross earnings for the year ending December 31, 1927, totaled \$586,142 against \$556,034. Operation expenses were \$3,661,707, compared with \$3,408,550, leaving net operating income at \$2,204,435.

To this figure was added \$291,253 miscellaneous income leaving gross income at \$2,495,687. After deductions made for interest, taxes, etc., the net surplus transferred to surplus account of \$950,137 as against \$757,069 at the end of 1926.

Adding surplus brought forward from 1926 and accounting for depreciation, the sum of \$949,139 is available for dividends, as compared with \$904,283 in 1926.

Following the adoption of the annual report, the directors were re-elected as follows: A. W. McIlmont, W. R. Bawlf, G. V. Hastings, W. H. Carter, W. J. Bulman, J. B. Woodruff, A. J. Nesbitt, N. J. Breen, S. L. Fuller, J. B. Coyne, K.C., and P. A. Thomson.

MAIL ORDER HOUSES SHOW GAINS  
New York, April 4.—The first of the quarterly reports on store sales have been announced, and they show substantial increase over the corresponding period of last year. The two big mail order houses, Sears, Roebuck and Montgomery Ward & Company, are always first to make public their monthly statements, and both show gains for the quarter.

HUFF MOTORS SETTING RECORD  
New York, April 4.—Huff Motor reports record March shipments of 8,094 cars, against 5,218 in February, the previous record. First quarter shipments were 16,862 cars, against 11,803 in 1927.

## LOAN TOTALS ARE AWAITED

New York, April 4. (By Branson Brown).—Observers of the financial situation are awaiting the New York Stock Exchange's announcement of the monthly total of loans with intense interest. Although in most cases unwilling to hazard a guess, remembering past erratic performances, most followers of the market share the general opinion that the total will show a major increase and will probably set another high record.

## PROPERTY AND EQUIPMENT

The company was incorporated on March 16, 1928, for the purpose of acquiring for a consideration of 1,000,000 fully paid Ordinary Shares of \$1 each (no cash being payable), the property of the Chichagoff Development Company, comprising ten patented lode mining claims, thirteen unpatented mining claims and other interests, all situate on Chichagoff Island in the Panhandle of Alaska, together with a completely equipped mill of 150 tons daily capacity, a large quantity of mining equipment, and 1,000 H.P. hydro-electric plant, bunkhouses, stores, various buildings and other assets. All the equipment is in excellent order and the invoice value of stores on hand is approximately \$35,000.

There are no debts or liabilities other than operating expenses for the month of March, 1928, the latter being more than covered by cash which is being taken over with the other assets.

## HISTORY OF PROPERTY

The property, which is known as the Chichagoff Mine, was steadily operated up to June, 1923, when it was closed down after having produced about 400,000 tons of gold ore worth approximately \$12,000,000 gross, out of which well over \$6,000,000 was distributed as dividends and bonuses. The ore was free milling and occurred over a vertical range of 2,500 feet and a lateral range of 4,000 feet. The average value was about \$30 a ton and much of it assayed between \$70 and \$80 a ton.

The mine was acquired by the Chichagoff Development Company early in 1924 and since then the ore won has realized over \$1,000,000, the profit from which has been largely utilized in completion of the purchase of the property, the installation of betterments costing around \$200,000, and the prosecution of a Special Development programme.

## NEW DISCOVERY

The latter has resulted in the discovery of a new shear paralleling the original shear at a distance of 600 feet. The new shear has been drifted on for 470 feet and has the same dip, strike, geological conditions and high-grade character of ore as the original shear, from which, as stated above, ore to the value of \$13,000,000 was taken.

Since the discovery of the new shear, the mine has been examined and reported upon by Mr. G. T. Jackson, and also Mr. J. L. Freeburn, who was in charge of the property during the period in which \$6,000,000 profit was earned.

The following is an extract from Mr. Jackson's report on the work done on the new shear:

"At 231 feet north of the crosscut, high-grade ore was encountered which continued for a distance of 20 feet. The ore averaged in the back of the drift \$44.80 per ton, width 16 inches, at a length of 20 feet. On the bottom of the drift it averaged \$35.20 a ton at a width of 40 inches. Four samples taken from the bottom of the drift for the full width of the shear, showed an average of \$12 per ton, and a width of 66 inches. Fifty-five tons of ore, recovered during drifting which included about half waste, showed an average of \$23 per ton. From this ore, to the face of the drift, more or less quartz was encountered, assaying from \$1.50 to \$14 per ton.—This New Shear shows the same character of country rock as the main Chichagoff Shear, it is well fractured and mineralized and the quartz has the same appearance and minerals as are encountered in the high-grade ore shoots of the Chichagoff Mine.—From the work done on the new shear, the high-grade values encountered at various places and the way the high-grade ore split up in the back of the drift, whilst the bottom showed continued strength and good walls, I am confident that we are on the top of a high-grade ore shoot and the development in depth will open up a high-grade shoot of considerable tonnage. The work done on the new shear opens up tremendous possibilities and I AM CONFIDENT WE HAVE EVERY CHANCE OF DEVELOPING AN ENTIRELY NEW MINE."

An extract from Mr. J. L. Freeburn's report is as follows:

"This new shear parallels the main Chichagoff shear at a distance of 574 feet has been drifted on 56 feet southerly, and 355 feet northerly. There are values showing in both faces and also at intervals for the full length of this drifting.—With a completely-equipped camp ready to resume milling operations at a day's notice, and a 1,000-horsepower Hydro-Electric Plant, and a working shaft with hoist, pumps, etc., I think you have a wonderful opportunity to get into real production very soon."

The Engineers' Reports point to the past performance of the property being duplicated in the future.

The Company is now preparing to develop the new shear on a scale commensurate with its possibilities. Ore won in development will be milled from time to time, but steady milling operations will not be commenced until the shear is further developed and the ore-bodies encountered have been put into proper shape for steady milling.

To provide funds for this work, the Company is issuing a prospectus (dated the 30th day of March, 1928, a copy of which has been filed with the Registrar of Companies) offering 600,000 shares of One Dollar each, fully paid and non-assessable, at fifty cents per share, payable in full on application. After issue of the above, 400,000 shares will remain in the Treasury.

250,000 Shares of this issue have been underwritten.

Application will be made to list the shares on the Vancouver Stock Exchange and the Victoria Stock Exchange.

Application for shares will only be received on the footing of the full prospectus.

Copies of the full prospectus and form of application can be obtained and reports, plans, etc., inspected at the office of

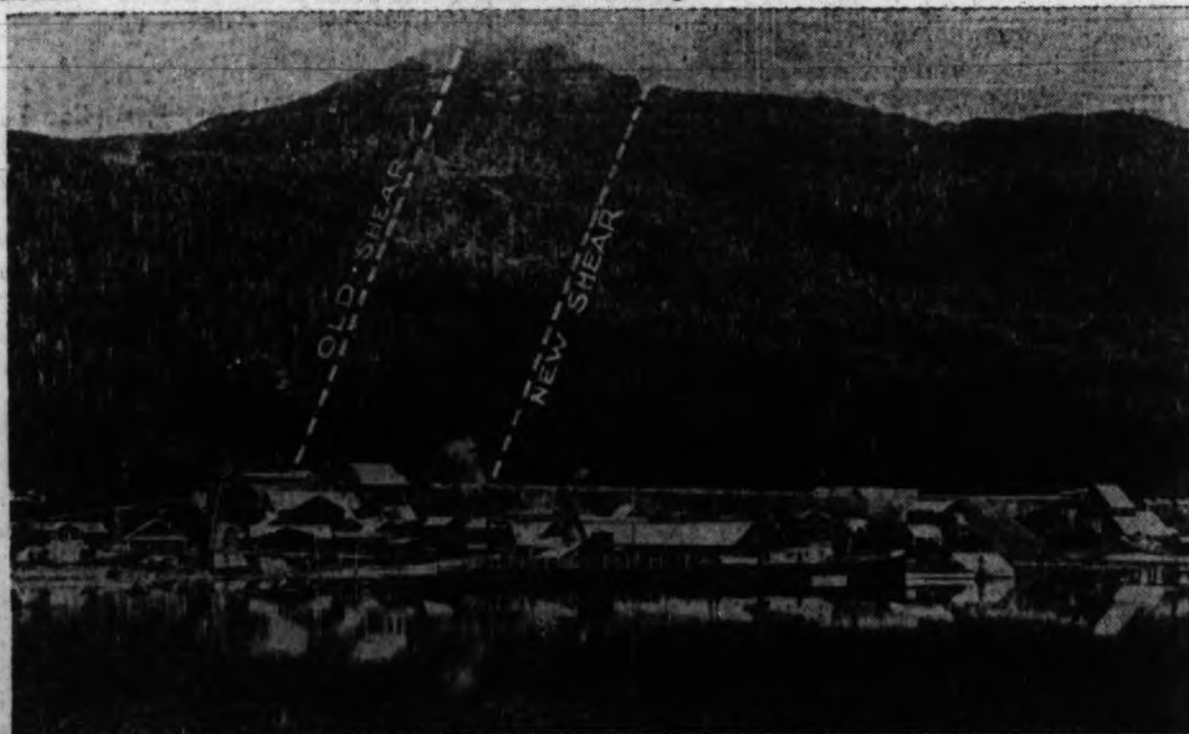

## R. G. CHRISTY & CO. LTD. 623 Fort Street Victoria, B. C.

OR CHICHAGOFF MINES LIMITED (N.P.L.)

Telephone Seymour 9290

612 Pacific Building

Vancouver B.C.

Photograph Showing the Mine, Mill, Plant and Equipment of Chichagoff Mines Limited (N.P.L.)

The mining property covers practically the whole hill shown in the photograph, and the Company owns all the buildings, milling and other equipment included in the picture and, in addition, a 1,000-h.p. hydro-electric plant, located close by.

The relative location of the old and newly discovered Shear Zones are marked on the photograph.

The Engineers' Reports state that underground tunneling shows the new shear to have the same strike, dip and geological conditions, and high-grade character of ore, as the old shear, from which \$13,000,000 was taken and over \$6,000,000 paid in dividends.

## WHITEWATER Mines Limited

Capital \$1,100,000, par \$1.00, all issued

### ISSUES WE HAVE SPONSORED:

Pend Oreille  
Whitewater  
Cork Province  
Lucky Jim  
Ruth-Slope

The Whitewater Mine holds first place as leader among the foremost mining properties of the Skeena district. First recommended by us at 25c per share, it is now trading firmly at \$2.50.

Whitewater has ore reserves for 25 years proven to a greater depth than those of any other mine in the Skeena.

The West ore zone, a comparatively recent discovery, is considered by eminent engineers to be the most important ore disclosure in the history of the district. The downward extension has been proven for a depth of over 1,500 feet.

The Whitewater Mill is a model of its kind. It has a capacity of 200 tons a day and has been constructed on a unit basis. Consideration is now being given the question of enlarging the mill by 100 tons.

New Hydro-electric Equipment will be supplying adequate power this Summer. The mill is located within 100 yards of the C.P.R. tracks.

In all the rich Skeena Mining Division Whitewater stands pre-eminent, both from a dividend point of view and because of strong prospects of early appreciation in the price of stock.

## Famous Alaska Mines, Producers of Millions, Now Under B.C. Control

Control in the famed Chichagoff mines on Chichagoff Island, Alaska, has been turned over to the British Columbia government, which has already turned out millions of dollars in profits and made millions out of some Tacoma-Alaska mining men, has been acquired by British Columbia interests. It is announced by G. N. Marshall of R. G. Christy & Company, Victoria representatives of the Chichagoff Mines Limited. This company has been incorporated with a capital of \$2,000,000 to take over and develop the Chichagoff Development Company's claims and properties.

The properties consist of ten patented lode mining claims and mill site and a half interest in one further claim, and of thirteen unpatented mining claims and a half interest in one further claim, was steadily operated up to June, 1923, when it was closed down after having produced 400,000 tons of gold ore worth approximately \$12,000,000 gross, out of which over \$6,000,000 was distributed as dividends and bonuses. The ore was free milling and occurred over a vertical range of 1,500 feet, and a lateral range of 4,000 feet. The average value was about \$30 a ton, and much of it assayed between \$70 and \$80 a ton.

In 1924 the mine was acquired by the Chichagoff Development Company, and since then the ore won has realized over \$1,000,000, the profit from which has been largely utilized in completion of the purchase of the property, the installation of betterments costing around \$200,000, and the prosecution of a special development programme. This development work has resulted in the discovery of a new shear paralleling the original shear at a distance of 300 feet. The new shear has been trifled on for about 740 feet, and has

the same dip, strike, geological conditions and high grade character of ore as the original shear, from which ore to the value of \$13,000,000 was taken. The company is now preparing to develop the new shear on a scale commensurate with the possibilities indicated in these reports. Ore won in development will be milled from time to time, but steady milling operations will not be commenced until the shear is developed and the ore bodies encountered have been put into proper shape for steady mining.

The Chichagoff Mines Limited, whose head office is in Vancouver, possesses an exceptionally strong board of directors. Its president is Charles A. Banks, M.I.M.M., who is also president of the B.C. Silver Mines Limited, and the secretary is H. A. Gould, who also holds the secretarial post in the B.C. Silver Mines Limited. The directors include such well-known men as F. W. Rounsefell of Ceperley, Rounsefell & Company; F. J. Duthie, president of the Duthie Mines Limited, and G. T. Jackson, A.I.M.E., who was formerly superintendent in Alaska for the Jackling mining interests, and who will be consulting engineer of the Chichagoff Mines Limited. The auditors of the company are Edwards, Morgan & Company, chartered accountants, Vancouver; and the solicitors are McPhillips, Duncan & McPhillips, also of Vancouver.

The underwriting commission is extraordinarily low, being comparable to rates for such purposes pertaining in such financial centres as the city of London.

The prospectus of the Chichagoff Mines Limited is unusually explicit in all its details, and a departure from convention has been made by the inclusion in the prospectus of a considerable portion of the articles of association.

The stock will be listed and traded in on the Vancouver and Victoria stock exchanges.

### PORTER-IDAHO NOTICES OUT

Victoria shareholders of the Porter-Idaho Mining Company to-day received from Stewart, B.C., official notice of the meeting to be held on April 16 at Stewart to pass on the sale of control of the mine to the Premier Gold Mining Company.

The resolution to come before the meeting is in this form: "That the directors of the company be authorized to sell 1,891,406 shares remaining in the treasury of this company to the Premier Gold Mining Company Limited for the price of \$500,000 net, payable in cash; and that the agreement dated March 21, 1928, under the terms of which the Premier Gold Mining Company Limited shall control this company and its mining operations, be approved, with power in the directors to vary or amend the terms of the said agreement as they may see fit in the interests of the company."

The present directors of Porter-Idaho will resign and fresh directors will be elected in accordance with the terms of the agreement with the Premier.

### B.C.-MADE TIRES PROVE POPULAR IN NEW ZEALAND

M. A. Moore, plant superintendent at the Gregory Tire & Rubber factory at Port Coquitlam, B.C., has completed an extensive Antipodean business trip, returning on the Niagara last week. When asked for his impressions Mr. Moore said:

"General business conditions in New Zealand are very good. This has been a wonderful year for wool over there, owing to excellent weather conditions. Wool has not reached such a high price for many years as it has done this year. New Zealanders are extremely pro-British and Empire products are always their first choice, providing such are of good quality. The rapid sales strides made by Gregory in New Zealand are due almost wholly to this fact. Although English cars are preferred,

for sentiment, the arrival of the new Ford is anxiously awaited over there. Ford publicity and propaganda has aroused their curiosity."

When asked what definite results he

expected of his New Zealand trip, Mr. Moore said: "First of all, the distribution of Gregory tires and tubes throughout the North and South Islands of New Zealand has been established on a basis that will take care of a considerable

ably greater volume. Gregory business over there has attained such increased proportions during the past year that we saw such action was an immediate necessity. I addressed many salesmen's meetings and was surprised at the keen regard and preference

they showed for our product. In fact, the standing of Canadian merchandise on the New Zealand market is extremely high, and is a good indication of what can be expected from Canada's growing trade with her sister Dominion in the land of the Southern Cross."

## Canada Starting 25 Years Of Independent Prosperity

Toronto, April 4.—Canada is entering an era of independent prosperity good for twenty-five years, regardless of the course of business in the United States, according to a survey of Trends of Business in Canada, just completed by the Sherman Corporation, engineers and business managers, under the direction of George L. Moore, assistant to John F. Sherman, president of the Sherman Corporation.

The investigation shows that the net profit condition in Canadian industry in 1927 was considerably better than in the United States, eighty per cent of the Canadian companies which furnished reports declaring increases in

net profit in 1927, compared with 1926, whereas a similar analysis of manufacturing enterprises across the border showed only fifty-one per cent of companies with bettered 1927 net profits.

Among the causes for increased profit, according to the report, were: Production of increased number of units; more rapid turnover; increased volume of sales; research on processes; more careful management; reduction in items and lines manufactured; less hand-to-mouth buying; the increased prosperity of Canada; closer attention to manufacturing and distribution details; improved quality; installation of more modern wage payment systems, and reduction in overheads.

Installation of new machinery, development of new merchandising plans and reduction of manufacturing cost per unit of product were three of the major trends in Canadian industry during the past year.

The importance of building up manufacturing and processing industries in the Dominion is emphasized in the report, which points out that more men are required to convert a pound of metal into wire than to extract the ore from the ground, and more labor and higher grade labor is needed to make watch springs than to make wire, so that "the creation of jobs for the more people that Canada needs in order to sell more of what she makes is vital and fundamental."

Current problems in Canada requiring attention in industry are summarized in the report as being "elimination of waste in production; scientific studies to lower cost both as regards man-power and machinery, without recourse to general lowering of wages; improvements in the productivity of labor both as regards quantity and quality of output; more attention to research and invention, by which products and processes may be improved and new products developed with which to take up the large amount of Canadian excess plant capacity; maintenance of sound ratios between overhead operating expenses and sales volume; keeping selling prices at a level where volume will allow normal profit under existing keen competition; regulation of over-production; more careful buying; more careful selection of accounts; and adjustments of the sale and distribution of manufactured articles to meet the changes in mercantile structure, such as chain stores and extension of the departmental store into the smaller towns."

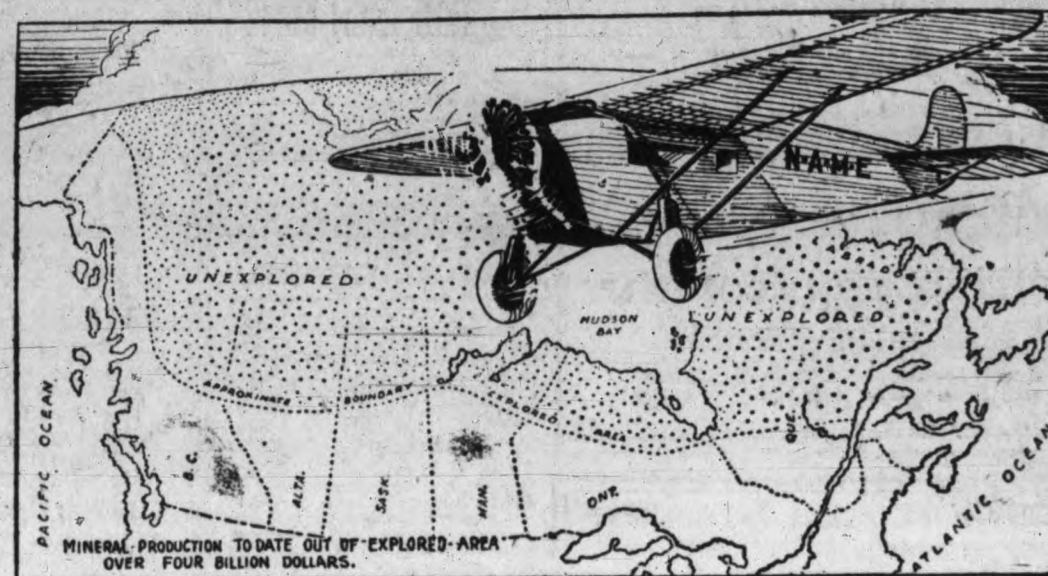

Opinions and judgments as to various phases of current Canadian business and economic trends are included in the report from Sir John Aird, president, Canadian Bank of Commerce; W. S. Atwood, vice-president, Canadian Car and Foundry Co.; E. W. Beatty, chairman and president, Canadian Pacific Railway; T. Bradshaw, general manager, Massey-Harris Co., Ltd.; Mark Bredin, president, Canada Bread Co., Ltd.; G. L. Burton, superintendent, The Robt. Simpson Co., Ltd.; Wilfred Gagnon, president, Aird & Son, Ltd.; Sir Herbert Holt, president, Montreal Light, Heat and Power, Consolidated; Beaudry Lemah, general manager, Banque Canadienne Nationale; David A. Marsh, president, Marsh Shoe Co., Ltd.; John Medland, president, National Grocers Co., Ltd.; A. B. Purvis, president, Canadian Industries Ltd. and association companies; W. E. Rundle, general manager, National Trust Co.; T. A. Russell, president, Willys-Overland, Ltd.; R. Hon. Lord Chalmers, president, Canadian Industrial Alcohol Co., Ltd.; J. D. Spackman, vice-president, Willard's Chocolates, Ltd.; A. C. Tasse, president, Canada Cement Co.; Gordon Tamblin, president, Tamblin, Ltd.; Sir Henry Thornton, chairman and president, Canadian National Railway; Sir Frederick Williams-Taylor, general manager, Bank of Montreal.

### LIFE COMPANY WOULD LIMIT AIR PILOT RISKS

New York, April 4.—Contending that the denial of its application for permission to insert a restrictive rider in life insurance policies issued to aviators constitutes a disadvantage to aviators seeking insurance, the Metropolitan Life Insurance Company has started a "friendly suit" against the State Insurance Department and its superintendent, James A. Beha, to test the superintendent's adverse ruling. The company obtained a certiorari order from the Supreme Court in Albany directing Mr. Beha to appear there for a review of his interpretation of the law.

The proposed rider provided that insurance companies issuing airplane insurance "to persons engaged in aeronautics other than are fare-paying passengers" should pay to the beneficiary only the reserve on the policy if the holder died as a result of an airplane accident. Mr. Beha denied the application on the ground that it was in violation of Section 101 of the Insurance Law, which specifies the conditions and times when a policy may be restricted.

## Northern Aerial Minerals Explorations Limited

### The New Ally of the Prospector

CANADA offers the greatest field known anywhere for mineral exploration. Approximately eighty per cent of its 3,700,000 square miles are in areas believed to be mineralized.

For half a century prospectors have paddled and mushed and broken trail to roll back the frontier of this vast El Dorado. The merest fringe has been uncovered. It has been estimated that ninety per cent of the great pre-Cambrian shield has never yet felt the foot of the prospector.

N.A.M.E. will give wings to the Canadian prospector, engineer and geologist and enable these trained mining men to find more mineral deposits in five years than have been discovered in the last half century.

#### NEW ISSUE

50,000 Shares 7% Non-Cumulative Preferred Stock With a Bonus of 50,000 Shares of Common Stock

### Northern Aerial Minerals Explorations Limited

(Incorporated Under the Companies Act of the Dominion of Canada)

#### Capitalization

100,000 Preferred Shares of the par value of \$50.00 each, and 250,000 Common Shares without nominal or par value.

#### Board of Directors

JOHN E. HAMMELL, Toronto President and Managing Director President, Howey Gold Mines Limited; Harker Gold Mines Limited; Mines Limited	J. H. BLACK, Toronto Vice-President Vice-president and Manager, Spruce Falls Power and Paper Company Limited
ROBERT FENNEL, Toronto Director Director, Barry Hollinger Mines Limited and Toronto Carpet Manufacturing Company Limited.	JAMES A. RICHARDSON, Winnipeg Director President of James Richardson & Sons Limited; Director, Canadian Pacific Railway Company, Canadian Bank of Commerce, International Nickel Company Inc., and Member of the Canadian Committee of the Hudson's Bay Company.
	E. H. ROSE, London, England Director Partner of Rose, van Cutsem & Company; Director, The Mining Corporation of Canada Limited.

The Preferred Shares are entitled to a fixed non-cumulative preferential dividend at the rate of Seven per centum (7%) per annum, are redeemable at One Hundred and Five per cent (105%) of the amount paid up thereon, and rank in priority to the common shares. A BONUS of one fully paid share of Common Stock will be given with each share of Preferred Stock purchased and paid for.

A minimum of Fifty per cent (50%) of the net profits available for dividends, as certified by the Company's auditors, will be set aside for the purpose of creating a sinking fund to provide for the redemption of Preferred Shares. Shareholders will participate through their common shares in all profits of the company by the sale of such properties as it may acquire, after provision is made for sinking fund, and will participate in the profits of such subsidiary companies as may be organized from time to time.

#### Business of the Company

The Company has been formed for the purpose of thoroughly exploring for and developing the rich natural resources of Canada; of organizing the business of exploration and developing natural resources, and of bringing the modern high-powered and completely proven aeroplane into active service for the purpose of prospecting for, acquiring, examining, exploring, testing, developing, operating and disposing of Gold, Silver, Copper, Nickel, Lead, Zinc, Tin, Iron, Coal, and other precious, semi-precious and base metal properties and for the purpose of exploring for, prospecting, developing, operating and disposing of other natural resources, including Oil, Pulp and Timber Lands and Hydro-electric Power, in the explored and unexplored Northern portions of the Dominion of Canada and elsewhere.

#### Purposes of the Present Issue

The proceeds of this issue will be used for the general purposes of the Company. The management of the Company proposes to commence operations immediately. The Company will have a cash treasury ample to carry on developments to the point where the organization of subsidiary companies is justified.

### PRICE, \$50.00 PER SHARE

Carrying a bonus of one fully paid share of Common Stock with each share of Preferred Stock purchased and paid for. The amount of shares allotted for subscription in Western Canada is limited and an immediate over-subscription is anticipated. It is the aim of the Company, however, to secure as wide a distribution as possible and applications will be accepted with reservation of the right to reduce the allotment applied for.

We believe this issue to have outstanding merit, but we do not recommend it except as a speculation.

These shares are offered for sale when, as if received by us and subject to legal approval of counsel.

## Luxton

Luxton, April 4.—Mrs. Mary Herd, of Victoria, spent a very pleasant weekend with her friends, Mrs. Mary Cooper and Mrs. John Trace, Sr.

A very delightful evening was spent last Saturday when Miss Hilda Brindley, "Stagger Inn," Glen Lake, entertained the gymnastic class of the

Although teeth are white  
**STILL..**  
Pyorrhea strikes  
4 out of 5

FEW people realize that Pyorrhea attacks even when teeth are clean and snowy white.

And as a result, this foe of health takes heavy toll from 4 out of 5 after forty and thousands younger. A needless sacrifice!

Take this precaution: See your dentist every six months. Every morning and night use Forhan's for the Gums. As a dentifrice alone, you would prefer it.

Without the use of harsh abrasives, it easily helps to keep teeth clean and white and also protects them

against acids which cause decay. Moreover, if used regularly and in time, it firms gums and helps keep them sound and alive, thus safeguarding them against the attack of Pyorrhea.

Get a tube of Forhan's. Use this dentifrice every day. Massage your gums daily with Forhan's, following the directions in the booklet that comes with tube. Teach your children this good habit. Two sizes—55c and 60c.

## URGES UNION UPON MINERS

### Cumberland Coal Workers Hear Malcolm Bruce on Organization

Cumberland, April 4.—A mass meeting of the mine workers of Cumberland was held on Sunday evening for the purpose of hearing Malcolm Bruce of Nanaimo, who was in Cumberland organizing a branch of the Mine Workers of Canada.

There was a fair attendance and Mr. Bruce spoke at length on working and social conditions on Vancouver Island and elsewhere, advocating the advantages to be gained by union.

Much discussion followed Mr. Bruce's address and a number of men joined the organization.

A small blaze in Chinatown called out the fire department on Sunday afternoon. The fire was confined to a small shed, which was partly destroyed. No other damage was done.

On Friday evening the Cumberland Welsh Society held the last "900" drive of the winter series which they have been conducting. Thirteen tables were in play and prizes were awarded to the high scorers of the evening, as well as to the lady and gentleman holding the highest individual score of the series. These latter were awarded to Mrs. Covert and A. Jones, and for the former, to Miss Winnie Calnan, Miss Mary Pickett and Mrs. Covert.

Miss Hannah Harrison and I Morgan tied for the gentlemen's first prize. Miss Harrison winning on the cut of the cards, and Mr. Morgan receiving second prize. Mr. James Quinn was the winner of the consolation. Dainty refreshments were served by the ladies of the society.

Twenty tables were required to accommodate the players when the local branch of the B.E.S.L. held their usual fortnightly whist drive and dance in the Memorial Hall on Saturday evening. The prize winners were Miss Frelone, Mrs. T. Vincent, Miss Frelone and Mrs. Vincent tied for first place and Miss Frelone won the cut of the cards, and Mrs. Vincent received second prize. Other prize winners were L. Scavarda and Mrs. J. Marocchi (subs). Refreshments were served by the Ladies' Auxiliary and dancing was enjoyed. Jimmy Walker's Melody Four furnished the music.

The Rev. Barton of Victoria, officiated at the evening service in Holy Trinity Church on Sunday, in the absence of the vicar, the Rev. E. O. Robathan. The Rev. Mr. Barton preached an inspiring Palm Sunday service.

Special Easter Music was rendered by the choir of St. George's United Church at the Sunday evening service and will be repeated on Easter Sunday evening. The anthems chosen were: "Easter Dawn," "Hallelujah, Christ is Risen," "Lift Up Your Heads" and "They Have Taken My Lovers Away."

There was a large congregation and the Rev. J. Hewitt, pastor, preached at both morning and evening services.

G. W. Clinton, manager of the Cumberland Electric Lighting Company and director of the Cumberland and Union Waterworks Company, left on Monday, April 2, for Victoria, where he will embark on the Ss. Niagara for Australia and New Zealand. Mrs. Clinton will have charge of his business interests during his absence.

Sunday, April 1, marked the fortieth anniversary of Mr. Clinton's arrival in Cumberland. He first came here in charge of the construction of the Wellington Colliery Railway from Union Bay during the ownership of Robert Dunsmuir & Sons.

## Langford

Langford, April 4.—The Langford basketball team suffered their first defeat this season when they visited Sooke on Monday afternoon to play a return match. The game was played in the Charters Hall and resulted in a win for the home team. The score was Sooke 19, Langford 9.

Frank Smedley motored the team to Sooke.

Mr. and Mrs. F. W. Wilfret and family, who have been living on the Millstream Road, have moved to a new bungalow on the Goldstream Road.

The service on Good Friday will be at 11.15 in St. Matthew's Church. Gifts of flowers for decorating the church for Easter should be brought to the vestry early on Saturday afternoon, April 7.

Mr. and Mrs. Lorne Rogers, of Goldstream Road, are receiving congratulations on the birth of a daughter on April 1 in St. Joseph's Hospital.

Mr. and Mrs. Sydney Brown have returned from a fortnight's holiday spent in Vancouver.

Mrs. George Cooney, Mrs. Arthur Wale and Miss Nellie Willson were prize winners at the Canadian Legion, Prince Edward branch, dance held last Friday in the Colwood Hall.

Mrs. W. E. Wilkinson, of the Island Highway, is visiting in Vancouver.

## Brentwood

Brentwood, April 3.—Mrs. Hodgson of Victoria, who is leaving to take up her residence in England, has been the guest of Mr. and Mrs. T. Walker during the past week.

Mrs. L. Overton of Victoria is spending a few days with Mr. and Mrs. G. Atkins of Verder Avenue.

Mr. and Mrs. L. Stevenson, who have spent the winter months in Victoria, have returned to their home at the beach.

Miss Aline Sargent of Victoria spent the week-end as the guest of Mrs. W. Watt, Brentwood Bay.

Mrs. Harry Meston and daughter and Mr. and Mrs. Kenyon of San Jose, California, visited Mr. and Mrs. W. Watt last week.

The Institute Hall was well filled with an appreciative audience on Friday night for the concert given by the pupils of the West Saanich School. Under the guidance of their teachers, Miss Anderson and Miss Wilkinson, a splendid programme of little plays and action songs were given as the first part of the entertainment. The opening number was "Spring Flowers." Those taking the parts were: Primrose, Hope Sluggitt; Daffodil, Joyce Thomson; Heartsease, Daisy Clow; Violet, Pat Creed; Daisy, Evelyn Snider; Bluebell, Gwen Thomas. This was followed by

"Puss in Boots" with Ken Thomson, Peter Jones, Albert Hunter, Jim Brooks, Irene Shiner, Lotus Crookes, Odell Ward and James Greenhalgh taking part.

"The North Wind" was a well executed presentation.

Two dainty dances were given by Sylvia Fitch and the minstrel by Miss Eaton and Miss English, who kindly gave an encore, which was enjoyed.

A comic sketch by T. Haddon, song by Harold Enson, and a "cello and piano" duet by Miss H. Maber and E. Rochon brought the programme to a close. Arthur Fitch made a capable chairman.

Refreshments were served at the close of the concert. Proceeds will go towards the improvements of the playing field of the West Saanich School.

## WIDE VARIETY FOR FESTIVAL

### Musical Competitions of All Sorts to Charm Many Audiences

The programme committee of the Victoria Musical Festival has completed its labors and as a result offer some very attractive evening concerts to the public during the festival which will take place in the First United Church, April 10 to 14 inclusive. The five programmes are replete

with competitive numbers which carry most appeal to a festival audience, including finals in vocal and instrumental solos, duets, trios and quartettes, as well as one adult choir competition each evening. An endeavor has been made to cater to all tastes, children of school age appearing on the same programme with adults in vocal and instrumental numbers.

A feature which will attract a great deal of attention will be the Scottish folk song competition for men, which will take place on the opening evening's concert, while a similar competition for ladies will be held during Wednesday's evening concert. These particular competitions have been sponsored by the Burns Club which is

presenting three medals for each contest.

Other evenings offer similar attractions, particularly the Saturday concert, which will include the string quartette class in which will appear the well-known Mozart quartette of Vancouver. The gold medal vocalist's contest will also feature this concert.

Reserved seats for all five evening concerts are now on sale at the festival office, 1623 Douglas Street, and as there are only a limited number available those desiring to be sure of good seats are advised to make early application.

### HEALTH INSURANCE

the National Health Insurance Bill, bringing the measure, which now has been operating for sixteen years, up to date. The changes, which affect 16,000,000 contributors, include the abolition of all penalties for arrears in contributions where such are due to unemployment by persons genuinely seeking employment.

THE distinctiveness of the custom-built automobile is immediately apparent in this luxurious model of the New Car.

In its sweeping, streamline body, enhanced by full crown fenders and lavish use of nickel, in its wide, deeply-cushioned lounge seats—in all the finishing touches which identify the custom-built car, the New Fordor Sedan ranks with the finest car made.

To add to comfort and convenience there are arm rests at the ends of the rear seat, a swing-

ing robe rail and oval bow light in the rear compartment. Embossed panelling on doors and on the ends of the front seat, ventilators in the lower panels of the cowl on either side, and numerous other features found in expensive cars are features of the New Fordor Sedan.

And the same careful attention which stamps the appearance of the New Fordor Sedan with individuality, has made this car of such mechanical perfection that in performance and durability it is unsurpassed.

"Come and get it!"

## MODERN MUSIC LIKE HASH MARK HAMBURG DECLARES

Of all the interesting personalities he has met in his many circumnavigations of the globe, Mark Hambourg awards the palm to Mark Twain.

The famous pianist arrived in Victoria to-day to give his concert here to-night, after what almost might be called a flight across the Atlantic from east to west. Ten days previously he had given a concert in Nice. A week previously he had been in London. And now he is in Victoria, despite the fact that violent Atlantic gales tried to slacken the speed of the Olympic.

Mark Hambourg seemingly has an inexhaustible repertoire of witty anecdote. He is said to have more musical compositions committed to memory than any other living man. He has an equally rich mine of conversational reminiscence.

He recalled his first contact with Mark Twain in Sydney, Australia, thirty-three years ago. They were staying at the same hotel, and he asked Mark to his concert.

"The came in late," Mr. Hambourg said, "just as I was coming on the stage. He was a little short-sighted and thought the applause was for him. He bowed right and left to the audience as he went down the side to his box and he stood up and bowed again while I was bowing from the platform. "Afterwards when I jested with him about his attempt to take my audience from me he said: 'You young men are so conceited. It was you who was trying to take my audience away from me.'"

Mark Hambourg still could see Mark Twain not so much through the haze of years as the haze of tobacco smoke. "He was the most inveterate smoker I have ever known. His boast was that no other man could smoke his cigars and live. And he was right. They cost him two for five cents."

He is the father of a young prima donna who has just made her first Victor record. And unfortunately when he unpacked his trunks the disc was broken. But it will be a long time before her voice breaks, for she is only five years old.

"They liked her little song," he said, "and insisted on making a record of it. And really it is charming."

He is proud of another daughter, fifteen years old, who is now at Oxford University, and was chosen to take part in a debate with Cambridge on the question of labor. It was held while he was on the ocean and he is

as Mark Twain. That was Aloysius or "Trader" Horn. His stories of his adventures among the tribes of South Africa kept us convulsed with laughter. He has a long beard and a head like parchment. Though he is well past seventy, he is a man of iron or alligator leather. He was drinking stout and fortifying it with kummel for fear it was too weak. He gave a Zulu war cry and wanted me to set it to music. "Would modern jazz writers asked the interviewer, 'find valuable suggestions in the innumerable native rhythms of South Africa?'"

"They would not get the native music," said the pianist with a laugh. "They would corrupt the natives. They would give them their own music."

He confessed that to his ear one popular hit was as like another popular hit as one plate of hash to another plate of hash. He called it "typewriter music. "Some one on the boat," he said, "insisted on playing me the latest thing. I was sure I had heard it before."

He commented on the remarkable circulation success in England of Lord Beaverbrook's Daily Express. It shocked conservative tastes, but it was giving the public what it wanted. He did not subscribe to that law in respect to the concert platform. "If you gave them what they wanted," he declared, "they soon would not want it. I give them what I like myself. I give them music."

But he had not the least cynicism with regard to the musical public. It was fastidious. No one could hold its attention without real art. But he was tolerant of vocal successes that were due as much to the diva's youth and beauty as her voice. "To be young and beautiful," he stated, "is something not to be despised."

PROUD OF HIS DAUGHTERS

He is the father of a young prima donna who has just made her first Victor record. And unfortunately when he unpacked his trunks the disc was broken. But it will be a long time before her voice breaks, for she is only five years old.

"They liked her little song," he said, "and insisted on making a record of it. And really it is charming."

He is proud of another daughter, fifteen years old, who is now at Oxford University, and was chosen to take part in a debate with Cambridge on the question of labor. It was held while he was on the ocean and he is

## WESTERN TALE OF RAW, WILD DAYS IN FILM

Ruthless cattle barons, adventuring pioneers, covered wagon caravans, the coming of the law—these are some of the romantic history bits of the United States in the West. They are also the basis for "The Land Beyond the Law," starring Ken Maynard at the Variety Theatre to-day.

## HIS MAKE-UP FOOLED AUTHOR OF FILM PLAY

When Laurence Stallings, co-author with Maxwell Anderson of "What Price Glory," now at the Columbia Theatre, visited the Fox West Coast Studios, where the film version of the play was being made, he was thoroughly fooled by William V. Mong, who plays the part of Captain Pete. Mong's make-up and characterization were so perfect that Stallings at first thought a provincial French barkeep had been imported by the producers.

## BESSIE LOVE IS PRETTY STAR IN UNDERWORLD PLAY

Bessie Love, the actress, has recently turned inventor. Recently, while she was in the role of an underworld flapper in "Those Who Dance," the Thomas H. Ince drama showing at the Playhouse Theatre, Miss Love, while rehearsing for a scene, was struck by an inspiration for decorating perfume bottles.

The process is now perfected and the "Love Bottle," an exquisite and unique perfume receptacle, will be put on the market as soon as the patent is secured.

"Those Who Dance" is a First National attraction with Blanche Sweet, Warner Baxter, Matthew Betz, Robert Agnew and Lucille Ricksen appearing under direction of Lambert Hillyer.

## TANKS FIRST IN ACTION AT FIGHT WITH CANADIANS

One of the most impressive and also one of the most soul-stirring and heart-touching melodramas in the big new British war film, "The Somme," which is being presented at the Coliseum Theatre to-day, is the scene of the tanks in action. The battlefields, there appears the gigantic outline of the first of "H.M. Landships," those now old familiar "tanks," to enter the war zone.

The first entry of the tanks into the war zone and into the firing line one week after the entry of the first Canadian division into actual combat, "The Somme," the second week in September, 1916. The surprise of the troops when they saw the weird and wonderful giant mechanical device, "a Tommy," one of these big, god-natured fellows who made the British army the great machine of the war.

The tank is a shell like during an advance, when he gets his first glimpse of the tank says, "Have I got 'em or something?" His master's reply, after a glancing glance at the massive moving caterpillar, is, "Gawdskemphink!"

eager to get the English papers to find out how she had done.

"She is an ardent supporter of the Labor party," he said. His daughter, he explained, comes by her politics legitimately for her mother, who was the Hon. Dorothy Muir Mackenzie, belongs to a family which gave the House of Lords its first Labor peer.

It is a commonplace of interviewing to ask a prima donna if she considers marriage compatible with a career. This giant of the pianoforte, who has the most virile personality the musical world knows, evidently finds a wife indispensable. When asked if she was with him he replied, "Of course, I never travel without her."

When asked if Russia is carrying out the Soviet ideal of producing proletarian music, he said, "It is a necessary, you have proletarian music everywhere. Jazz is proletarian music."

He, however, had heard in Nice of a very prolific Russian composer. "Poor old Beethoven," Mr. Hambourg said, "never got beyond his ninth symphony. Schubert left one unfinished. This new composer has written scores of symphonies. They are nothing to him."

OLD ARTISTS BETTER OFF

He felt the artist probably was better off in the old days, when there was no middle class and the only art patrons were the great nobles. "Leonardo da Vinci could not have lived and never worry about his bread. Matinee, who is a really remarkable genius, literally starved for years. His pictures absolutely were unsaleable. But now he has his revenge. He makes the art dealers buy not what they want but what he wants to give them. They can't even see what they are buying. He shows them a small picture, and then 150,000 francs and they can take it or leave it—and they are only too glad to take it."

So many artists starved because they would not bow to public taste that Mark Hambourg rather exulted at the thought of Matinee's revenge. It was a good thing for the artist to assert himself if he could against the money lords of the modern world. It tamed the pride of multi-millionaires to find there were art and literary circles like the Savage Club in London, to which their money could not buy entrance.

Mark Hambourg in all his globe trotting never has taken to the air. "I prefer to go to heaven by another way," he said, with a smile, and added, "The trouble with an aeroplane is that if I get over Piccadilly Circus and wanted to get down, before that is possible I am in Berlin."

This reminded him of a Hollander who landed at Croydon field in the air express from Paris and inquired, "Is this Amsterdam?" and when told where he was exclaimed, "Good heavens, I took the wrong plane!"

Mark Hambourg recently has been declared by European critics to be at the top of his phenomenal talent. Certainly he is at the top of his conversational form. His vivacity and energy is unique.

## Where To Go To-night

Capitol—"The Shepherd of the Hills." Coliseum—"The Somme." Columbia—"White Price Glory." Dominion—"The Garden of Allah." Playhouse—"The Notorious Mrs. Darlington." Variety—"The Temptress." Crystal Garden—"Dancing and Swimming."

## HEAVY DESERT STORMS CAUGHT CAMERA OUTFIT

After taking wind machines, howling aeroplane motors and tons of paraphernalia to the desert to make sandstorm scenes at night—an enterprise never before attempted on the Sahara by a motion picture company—"The Garden of Allah" troupe, which Rex Ingram directed abroad for Metro-Goldwyn, enjoyed the ironic experience of being caught in a natural sandstorm that blinded them and paralyzed all production for days.

The sandstorm took place at Bou-Saada, Algeria, about half way between the port of Algiers and the oasis of Blakra, where the original Garden of Allah still exists. Two different groups were working at two different places and all communication was cut between them. Rex Ingram and three assistants were lost in the storm for thirty-six hours.

After the storm subsided, it took a day to repair the mechanism of the scaffold and shooting was successfully completed. Though the last scene to be taken, it is the opening shot of the new Ingram picture which is at the Dominion Theatre all this week.

Alice Terry and Ivan Petrovich play the leading roles. Others in the cast are: Marva Vinters, H. Humberston Wright, Gerald Fielding, Mme. Paganette, Armand Durtre, Ben Sadour and Michael Powell.

## MUSIC FOLLOWS PICTURE ACTORS ON LONG TRIP

Music followed the company producing "The Shepherd of the Hills," picture version of Harold Bell Wright's famous novel, now playing at the Capitol Theatre, on a 3,500-mile location jaunt! Charles E. Rogers, who produced the film for First National Pictures, and Albert Rogell, who directed it, were believers in music as inspiration for screen players. So a trio consisting of violin, cello and portable organ accompanied the troupe to the Ozark Mountains, the Rockies of Utah and Colorado, and various locations in California.

The stage specialties for this week at the Capitol Theatre include the Four Cinderella Girls, singers and dancers, in a novelty offering; Margery Burke, accompanist; Gertrude Kirk-Smith, viola artist and soprano soloist, in a song and music specialty; and Harold Bechtel in a new song hit.

FRED W. BARTHOLOMEW, Prop.

825 FORT ST. (Between Quadra and Blanshard Sts.) PHONE 3119

casual of their first visit to this city will present "Mr. What's His Name" at the Royal Victoria Theatre Monday and Tuesday evenings and Wednesday matinee. "Scrooge" and "Sleeping Partners" are scheduled for Wednesday and Thursday evenings, and "The Man in Dress Clothes" Friday and Saturday evenings and for Saturday's matinee.

The story of "Mr. What's His Name" was adapted from the French and tells of one Adolphe Noblet, who, having lost his memory in a train accident, becomes a barber. His wife, thinking him dead, marries again and has a child. Noblet, too, marries and has children. The two meet again when Adolphe visits his former home in the capacity of hairdresser to his former wife. He is oblivious to the fact that his surroundings should be familiar, and would have left in ignorance had not his memory been restored by suggestion. The complications arising from this peculiar situation, and the disentangling of what seems almost a hopeless state of affairs, are sources of continuous laughter throughout the play.

"The Man in Dress Clothes" is Mr. Hicks' own adaptation from the French and a truly delightful drama. It is an episode of the life of Lucien d'Artois, who, to obliterate a private trouble, plays around in the bright lights of Paris until his finances are drained to the dregs.

The regular box office sale opened this morning at 10 a.m., and theatre-goers would be wise to secure their tickets at once, as already there has been a heavy demand for seats through the mails.

25 to 30 drops of Selan's Syrup relieves all forms of indigestion and dyspepsia. You'll swear by it once you have tried it. Any drug store.
